**The New Scapegoats: Colored-On-Black Racism** Kwame Okoampa-Ahoofe, Jr.,2005-03-29 The New Scapegoats Colored On Black Racism debunks the widespread and seemingly indelible myth of Africa s blind and facile complicity in the massive uprootment and enslavement of its own in the Americas between the Fifteenth and Nineteenth centuries The author demonstrates the Transatlantic Slave Trade to have been the primary product of Western Europe s industrial revolution Praise for Okoampa Ahoofe s Work Kwame Okoampa Ahoofe s analyses always expand the frontiers of our knowledge He challenges what is taken for granted and in the process pushes us to reflect critically on important issues of the day In his latest work The New Scapegoats Colored On Black Racism Okoampa Ahoofe re visits old assumptions about the Africana world and takes to task how these tired assumptions are being re cycled as the new paradigm for understanding Africa Karl Botchway political scientist New York City College of Technology of The City University of New York author of Understanding Development Intervention in Northern Ghana

**The Scapegoat** Mars Algiros,2026-01-03 From ancient ritual to modern politics societies have always searched for a way to relieve guilt without confronting its source The Scapegoat traces one of humanity s oldest psychological and social mechanisms the transfer of blame Beginning with the ritual described in Leviticus where a goat symbolically carried a community s sins into the desert the book follows how this practice evolved from religious ceremony into a recurring pattern embedded in families institutions economies and nations Rather than examining scapegoats as victims or villains this book exposes the system that creates them It explains why innocence is not a flaw but a requirement why blame offers emotional relief without accountability and why societies repeatedly choose stability over truth Drawing from history psychology sociology and modern case patterns the book shows how complex problems are simplified by assigning guilt to visible vulnerable targets while deeper causes remain untouched Moving into the present The Scapegoat explores how economic failure fear crime and war are framed through narratives that redirect anger away from power and toward expendable figures These chapters do not argue political positions they reveal a structure that repeats regardless of ideology geography or era The final sections confront the hardest question who benefits from scapegoating and why does it feel coordinated even without a central conspiracy The book concludes by examining rare moments when the ritual failed and what happens when societies refuse to send another goat into the desert Uncomfortable precise and deliberately restrained The Scapegoat is not a book about who is blamed but about why blaming works and why the ritual persists long after the altar has disappeared

**Scapegoats of September 11th** Michael Welch,2006 Argues that the war on terror is a political charade that delivers illusory comfort stokes fear and produces scapegoats used as emotional relief Drawing on topics such as the Abu Ghraib scandal Guantanamo Bay and the controversial Patriot Act this work looks at the significance of knowledge language and emotion in a post 9 11 world

**Grammars of Identity/alterity** Gerd Baumann,André Gingrich,2004 Issues of the construction of Self and Other normally in the context of social exclusion of those perceived as different have assumed a new urgency This collection offers a fresh perspective on the ongoing debates on these questions in the social sciences and the humanities by focusing specifically on one theoretical proposition namely that the seemingly universal processes of identity formation and exclusion of the other can be differentiated according to three modalities All contributors directly engage with rigorous empirical testing and theoretical cross examination of this proposition Their results have direct implications not only for a more differentiated understanding of collective identities but also for a better understanding of extreme collective violence and genocide     **Golden hours, ed. by W.M.
