**Pasta Cookbook** Gordon Rock, 2015-11-10 Virtually anything and everything goes with pasta meat poultry fish seafood vegetables dairy herbs and oil It is one of the world's most versatile and adaptable foods Being nourishing it is as well economic and easy to cook The sauces for pasta can be quick and simple requiring short preparation time and few ingredients or can be elaborate and rich all as you like There are no rules about what pasta shape to serve with which sauce it's really all up to you The Italians make more than 200 different sort of pasta with all kind of shapes with about three times as many different names New shape and design pasta are being produced all the time Moreover the same shape may have a different name in different region of Italy It is the national treasure of the country It would be hard to imagine if we didn't discover pasta It would make us as unhappy and incomplete as if Christopher Columbus had not attained America Pasta and noodles are more than staple foods they are truly universal Flour water oil and where appropriate an egg it's simple but foolproof Regardless of who invented them with their varieties of sauces to infinity pasta belongs to everyone pasta belongs to you All the experts are unanimous starchy foods like pasta is not fattening unless you consume excessive amounts Indeed they contain complex carbohydrates which are slowly absorbed by the body more efficiently delaying the return of hunger It is easier to avoid break between meals The real problem for pasta is rather how we prepare and we support the min sauces or grated cheese So there is a big difference between spaghetti in tomato sauce and spaghetti alla Carbonara No anymore delay in getting this great pasta cookbook Start to impress your friends and family but the most important is to please yourself by making some fantastic recipes with it
