Alfred T. story

New Phrenology:

The New Phrenology William R. Uttal, 2001 William Uttal is concerned that in an effort to prove itself a hard science psychology may have thrown away one of its most important methodological tools a critical analysis of the fundamental assumptions that underlie day to day empirical research In this book Uttal addresses the question of localization whether psychological processes can be defined and isolated in a way that permits them to be associated with particular brain regions New noninvasive imaging technologies allow us to observe the brain while it is actively engaged in mental activities Uttal cautions however that the excitement of these new research tools can lead to a neuroreductionist wild goose chase With more and more cognitive neuroscientific data forthcoming it becomes critical to question their limitations as well as their potential Uttal reviews the history of localization theory presents the difficulties of defining cognitive processes and examines the conceptual and technical difficulties that should make us cautious about falling victim to what may be a neo phrenological fad A Chart of New Phrenology ... [With a Portrait.] William Wilson (Writer on Phrenology.), 1895

American Phrenological Journal and Life Illustrated, 1904 *Making Sense of Self* Anita Clair Fellman, Michael Fellman, 2016-11-11 Seeking the key to good living through physical well being the American public since at least the 1830s has devoured literature proffering medical advice Making Sense of Self is an historical analysis of the ideological content of a broad sample of late nineteenth century popular advice literature concerning the body and the mind At a time when the middle class was threatened with tumultuous social and economic change such publications offered blueprints for self regulation teaching survival and discipline and bringing some sense of order and hope for self improvement Anita and Michael Fellman analyze this literature as a signpost to the general aspirations anxieties debates and assumptions of late Victorian Americans who were less optimistic than had been their antebellum forebears about personal and social progress In particular the authors interpret the ideas these various advisors offered regarding bodily health the workings of brain and mind sexuality and the will Although the advice literature as a whole was diverse and even contradictory the ethic of moderation was often stressed as the method however limited to obtain some sense of discipline and control and the will was frequently asserted as the means to a more dynamic self expression The sense of fragility search for security and dependence on individual self governance revealed in this literature remain as persistent elements in the middle class American character The significance of this popular ideology lies not in whether it led to specific behavior but in how it enabled people to interpret themselves and their situation to themselves during a period in which many basic ideological issues appeared more confused than certain Making Sense of Self offers a close examination of a period analogous to our own times The phrenological magazine Alfred T. story, 1881 Buchanan's Journal of Man, 1854 **The Phrenological Journal and Science of Health**, 1886 **The Phrenological Journal and Life Illustrated**, 1885 **Subject Index of the Modern Works Added to the Library of the British Museum in the Years ...** British Museum.
