Christian Drosten

New Religions Of Japan:

Japanese New Religions in Global Perspective Peter B Clarke, Peter B. Clarke, 2013-11-05 Since the 1960s virtually every part of the world has seen the arrival and establishment of Japanese new religious movements a process that has followed quickly on the heels of the most active period of Japanese economic expansion overseas This book examines the nature and extent of this religious expansion outside Japan

Japanese New Religions in the West Peter B. Clarke, Jeffrey Somers, 2013-10-18 An excellent and very timely update on an area seeing many recent developments

The New Religions of Japan Harry Thomsen, 1963 THE PUBLICATION of this book will meet a conscious need among students of Japanese religion and culture because it presents in a series of factual and scholarly yet not pedantic expositions one of the significant developments of postwar Japan the emergence and development of shinko shukyo or new religions Mr Thomsen who has given himself to the study of these religions and is one of the younger missionaries who herald a return to the scholarly tradition so greatly neglected among postwar Christian missionaries and students estimates that the new religions have about eighteen million followers or one out of every five Japanese Probably never before in the history of Japan have there been so many kinds of religious innovations and interests This book is significant on several counts it reflects the vitality of Japanese religion through the new religions which perhaps are as representative of this vitality as any of the older traditional religions It seriously considers this unique phenomenon of Japanese culture which because of fanatical and superstitious acts among some of the followers has been treated with a reproach mingled with contempt and because of obvious materialism and even charlatanry has led many to dismiss them with a quip or a laugh On the other hand some of the older religious groups are obviously alarmed over the increasing power of the new religions because they are seemingly able to meet many of the felt needs of the Japanese people Mr Thomsen considers the religious and sociological factors that have created these movements the roots from which they have sprung and goes a considerable distance toward establishing their common bonds The book is important for the Christian student because it not only describes the encounter which Christianity has had with these new religions but it also makes clear the difficulties missionaries have had in facing the Oriental syncretic concept of religion

Establishing the Revolutionary Birgit Staemmler, Ulrich M. Dehn, 2011 New religions in Japan claim millions of members and simultaneously provoke criticism and fulfil social functions This publication serves as a handbook about these new religions on the basis of recent research written by an international range of scholarly experts

The New Religions of Japan H. Byron Earhart, 1970

the New Religions of Japan, 1970

Kurozumikyo and the New Religions of Japan Helen Hardacre, 1988-11-21 The description for this book Kurozumikyo and the New Religions of Japan will be forthcoming

Bibliography of Japanese New Religions, with Annotations and an Introduction to Japanese New Religions at Home and Abroad Peter Bernard Clarke, 1999 Containing some 1500 entries this new bibliography will be widely welcomed for its comprehensive brief and for the sub section profiling principal NRMs converging history beliefs and practices main

publications braches worldwide and membership

The New Religions of Japan H. Byron Earhart, 1983 **Dynamism and the Ageing of a Japanese 'New' Religion** Erica Baffelli, Ian Reader, 2018-12-13 This book is available as open access through the Bloomsbury Open programme and is available on www.bloomsburycollections.com This book examines the trajectory and development of the Japanese religious movement Agonshu and its charismatic founder Kiriama Seiyu Based on field research spanning 30 years it examines Agonshu from when it first captured attention in the 1980s with its spectacular rituals and use of media technologies through its period of stagnation to its response to the death of its founder in 2016 The authors discuss the significance of charismatic leadership the democratisation of practice and the demands made by movements such as Agonshu on members while examining how the movement became increasingly focused on revisionist nationalism and issues of Japanese identity In examining the dilemma that religions commonly face on the deaths of charismatic founders Erica Baffelli and Ian Reader look at Agonshu s response to Kiriama s death looking at how and why it has transformed a human founder into a figure of worship By examining Agonshu in the wider context the authors critically examine the concept of new religions They draw attention to the importance of understanding the trajectories of new religions and how they can become old even within their first generation

Prophets of Peace Robert Kisala, 1999-10-01 Wars in the Persian Gulf and Yugoslavia have given new impetus to the ongoing debate in Japan concerning its postwar constitution and related issues of national security and world order Although often overlooked in this debate Japanese religious groups especially some of the New Religions have promoted peace as a major theme of their doctrine and activities often explicitly supporting a pacifist position This study undertaken in the wake of the Persian Gulf War looks at a representative group of New Religions and explores their concepts and practices of peace Many of the Japanese New Religions draw on a tradition that emphasizes individual moral cultivation and use of prewar terms to describe their mission One expression *hakko ichiu* literally the whole world under one roof conveys the ideal of world unity under Japanese direction leading to the establishment of peace In this way it is a prime example of the prewar idea of establishing peace through the spread of Japanese civilization The author cites evidence pointing to the prevalence of a mistaken notion of the implications of the pacifist position a situation that both reflects and contributes to the confusion surrounding popular debates on pacifism in Japan *Prophets of Peace* is an attempt to correct that misperception by providing a critical study of the social ethic of the Japanese New Religions a topic that has been largely ignored in research on new religious movements worldwide Professor Kisala draws on the literature that presents their doctrine and surveys their believers to describe their approach to the question of peace The results of this fieldwork are placed within the dual framework of Western peace studies and the modern Japanese intellectual tradition highlighting the issues of pacifism and the cultural approach to peace in Japan In his analysis of these results he offers some observations on the role of religion in contemporary Japanese society and advocates a more positive engagement in the debate on Japan s role in international security arrangements By offering a

representative sample of New Religion groups and focusing on their doctrines Prophets of Peace provides a different perspective for those whose primary interest is the Japanese New Religions Although students and scholars of Japanese religion will be the book's first audience its accessibility and thematic approach also recommend it to readers with a broader interest in contemporary Japanese society peace studies and the role of religious groups in modern society From Salvation to Spirituality Susumu Shimazono, 2004 In this work Susumu Shimazono investigates the development of popular religious and spiritual movements in Japan in the 19th and 20th centuries Media and New Religions in Japan Erica Baffelli, 2016-02-05 The Open Access version of this book available at www.taylorfrancis.com/books/9781135117849 has been made available under a Creative Commons Attribution Non Commercial No Derivative 4.0 license Japanese new religions shinshūkyō have used various media forms for training communicating with members presenting their messages reinforcing or protecting the image of the leader and potentially attracting converts In this book the complex and dual relationship between media and new religions is investigated by looking at the tensions groups face between the need for visibility and the risks of facing attacks and criticism through media Indeed media and new technologies have been extensively used by religious groups not only to spread their messages and to try to reach a wider audience but also to promote themselves as a highly modern and up to date form of religion appropriate for a modern technological age In 1980s and early 1990s some movements such as Agonshō Kōfuku no Kagaku and Aum Shinrikyō came into prominence especially via the use of media initially publications but also ritual broadcasts advertising campaigns and public media events This created new modes of ritual engagement and new ways of interactions between leaders and members The aim of this book is to develop and illustrate particular key issues in the wider new religions and media nexus by using specific movements as examples In particular the analysis of the interaction between media and new religions will focus primarily on three case studies predominantly during the first period of development of the groups The Religions of Japan William Elliot Griffis, 1895

The Religions of Japan from the Dawn of History to the Era of Meiji William Elliot Griffis, 1912 **Celebrity Gods** Benjamin Dorman, 2012-02-29 *Celebrity Gods* explores the interaction of new religions and the media in postwar Japan It focuses on the leaders and founders of Jiu and Tenshōkyō two new religions of Japan's immediate postwar period that received substantial press attention Jiu was linked to the popular prewar group motokyo and its activities were based on the millennial visions of its leader a woman called Jikōson When Jiu attracted the legendary sumo champion Futabayama to its cause Jikōson and her activities became a widely covered cause célèbre in the press Tenshōkyō labeled odorushōkyō the dancing religion by the press was led by a farmer's wife Kitamura Sayo Her uncompromising vision and actions toward creating a new society one that was far removed from what she described as the maggot world of postwar Japan drew harsh and often mocking criticism from the print media Looking back for precursors to the postwar relationship of new religions and media Benjamin Dorman explores the significant role that the Japanese media traditionally played in

defining appropriate and acceptable social behavior acting at times as mouthpieces for government and religious authorities Using the cases of Renmonky in the Meiji era and motoky in the Taish and Sh wa eras Dorman shows how accumulated images of new religions in pre 1945 Japan became absorbed into those of the immediate postwar period Given the lack of formal religious education in Japan the media played an important role in transmitting notions of acceptable behavior to the public He goes on to characterize the leaders of these groups as celebrity gods demonstrating that the media which were generally untrained in religious history or ideas chose to fashion them as celebrities whose antics deserved derision While the prewar media had presented other ky s as the antithesis of decent moral citizens who stood in opposition to the aims of the state postwar media reports presented them primarily as unfit for democratic society Celebrity Gods delves into an understudied era of religious history the Allied Occupation and the postwar period up to the early 1950s It is an important interdisciplinary work that considers relations between Japanese and Occupation bureaucracies and the groups in question and uses primary source documents from Occupation archives and interviews with media workers and members of religious groups For observers of postwar Japan this research provides a roadmap to help understand issues relating to the Aum Shinriky affair of the 1990s

Religion and Society in Modern Japan Mark Mullins,Susumu Shimazono,Paul Loren Swanson,1993 Designed for classroom study this anthology provides the students with interpretations and perspectives on the significance of religion in modern Japan Emphasis is placed on the sociocultural expressions of religion in everyday life rather than on religious texts or traditions A particular strength of this collection is the combination of current Japanese and Western scholarship

The New Religions in Japan Harry Thomsen,1969

New Religions in Japan Marjorie C. Leeper,1962

New Religions in Global Perspective Peter B. Clarke,2004-06-01 Peter B Clarke s in depth account explores the innovative character of new religious movements and new forms of spirituality from a global vantage point Ranging from North America and Europe to Japan Latin America South Asia Africa and the Caribbean it is the perfect introduction to NRMs such as Falun Gong Aum Shirikyo the Brahma Kumaris the Ikhwan or Muslim Brotherhood Sufism the Engaged Buddhist and Engaged Hindi movements Messianic Judaism and Rastafarianism Charting the cultural significance and global impact of NRMs he discusses the ways in which various religious traditions are shaping rather than displacing each other s understanding of notions such as transcendence and faith good and evil of the meaning purpose and function of religion and of religious belonging He then examines the responses of governments churches the media and general public to new religious movements as well as the reaction to older increasingly influential religions such as Buddhism and Islam in new geographical and cultural contexts Taking into account the degree of continuity between old and new religions each chapter contains not only an account of the rise of the NRMs and new forms of spirituality in a particular region but also an overview of change in the regions mainstream religions
