## More Taste Than Time:

**After Taste** Slavko Kacunko, 2021-06-03 After Taste is an inquiry into a field of study dedicated to the reconsideration reconstruction and rehabilitation of the concept of Taste. Taste is the category whose systematic historical and actual dimensions have traditionally been located in a variety of disciplines. The actuality and potential of the study is based on a variety of collected facts from readings and experiences which materialize in the following features. One concept figurative Taste, two thinking traditions analytic and synthetic, continental and three interrelated dimensions systematic, historic and actual are presented in three parts or volumes. As such the study presents a salient comprehensive companion for wider readership of humanities approaching conceptions of Taste for the first time. Moreover After Taste is intended for anyone who hopes to make a further contribution to the subject. Since its appearance and apparently short triumph some 250 years ago the concept of non literary Taste remained the lynchpin of aesthetic theory and practice but also a category outreaching aesthetics. Taste as the personal unity of the production theory and criticism of art and literature which was still largely taken as a given in the eighteenth century has meanwhile given way to a highly differentiated art world in which aesthetic discourse is placed in such a way that it can seemingly no longer have a conceptual or linguistic effect on general opinion making. After Taste fills the gaps of systematic research by a comprehensive tracing of the emergence of the doctrines, discourses and disciplinary dimensions of Taste up to the peak of its systematic and historical trajectory in the eighteenth century and onwards into the present day. The guiding goal is a post disciplinary rehabilitation of the contested category as a preparation for its productive usage in emerging academic and popular contexts. It shows how the category of Taste became the foundation, legitimization and the catalyst for the emerging division of labour faculties and disciplines confirming the hypothesis of the immense impact and actuality of Taste in the contemporary world.
