**More's Utopia** Robbin S. Johnson, 1969      *The Poetics of Primitive Accumulation* Richard Halpern, 1991      *Pastoral Cities* James L. Machor, 1987 What has the city meant to Americans James L Machor explores this question in a provocative analysis of American responses to urbanization in the context of the culture's tendency to valorize nature and the rural world Although much attention has been paid to American rural urban relations Machor focuses on a dimension largely overlooked by those seeking to explain American conceptions of the city While urban historians and literary critics have explicitly or implicitly emphasized the opposition between urban and rural sensibilities in America an equally important feature of American thought and writing has been the widespread interest in collapsing that division Convinced that the native landscape has offered special opportunities Americans since the age of settlement have sought to build a harmonious urban pastoral society combining the best of both worlds Moreover this goal has gone largely unchallenged in the culture except for the sophisticated responses in the writings of some of America's most eminent literary artists Pastoral Cities explains the development of urban pastoralism from its origins in the prophetic vision of the New Jerusalem applied to America in the sixteenth and seventeenth centuries through its secularization in the urban planning and reform of the 1800s Machor critiques the sophisticated treatment of urban pastoralism by writers such as Emerson Whitman Hawthorne Wharton and James by skillfully by combining cultural analysis with a close reading of urban plans travel narratives sermons and popular novels The product of this multifaceted approach is an analysis that works to reveal both the strengths and weaknesses of the pastoral ideal as cultural mythology      **The New Cambridge Bibliography of English Literature** George Watson, Ian Roy Willison, 1974      The Myth of Sisyphus Elliott M. Simon, 2007 The myth of Sisyphus symbolizes the archetypal process of becoming without the consolation of absolute achievement It is both a poignant reflection of the human condition and a prominent framing text for classical medieval and renaissance theories of human perfectibility In this unique reading of the myth through classical philosophies pagan and Christian religious doctrines and medieval and renaissance literature we see Sisyphus the most cunning of human beings attempting to transcend his imperfections empowered by his imagination to renew his faith in the infinite potentialities of human excellence BOOK JACKET      2000, 000000 0000 0000      The Picture of Europe and England in Book I of Thomas More's "Utopia" Joachim Von Meien, 2007-11 Seminar paper from the year 2006 in the subject English Language and Literature Studies Literature grade 1 University of Hannover Philosophische Fakultät Englisch Seminar course Seminar Early Modern Utopias 10 entries in the bibliography language English abstract This paper is supposed to analyse the picture of England and Europe as it is drawn in Book I The question that rises is what major points of life in Europe in the beginning of the 16th century are being criticised It is not possible to do so without taking into account the time of publication It needs to be answered what role the transition time of early 16th century played for the author to write such a book which founded a new genre of literature The Utopia 2 From that point on literary works which

described an invented positive society where named Utopias Chapter two is giving a short overview of the composition of Book I It is followed by the main chapter No 3 of this paper It deals with the political and social injustices in England and Europe as they are being characterized in the first Book of More's Utopia It focuses on the following major points of criticism European monarchs an adequate form of punishment especially for theft the important enclosure movement and the role of private property in a society These different images I would like to call them pieces of a puzzle form a general impression a puzzle so to say which the reader gets about the contemporary state of Europe if he puts the pieces together 2 Following important works of that genre are for instance A Modern Utopia by H G Wells Ecotopia by Ernest Callenbach Dinotopia by James Gurney but also The New Atlantis by Francis Bacon *Western Political Thought* Robert Eccleshall, Michael Kenny, 1995 This is a guide to the vast amount of literature on the history of political thought which has appeared in English since 1945 The editors provide an annotation of the content of many entries and where appropriate indicate their significance controversial nature and readability *The Utopian Vision* Saint Thomas More, 1983 To find out more information about Rowman Littlefield titles please visit us at [www.rowmanlittlefield.com](http://www.rowmanlittlefield.com) Illusions and Realities of the War Francis Grierson, 1918 **Studies in English** University of Mississippi.
