

MOSCOW ON THE HUDSON

America is sometimes a strange place even for Americans.
Let alone for Vladimir Ivanoff, a Russian defector with a black roommate,
a Cuban lawyer and an Italian girlfriend.
Who's learning to live with Big Macs, cable TV, hard rock, softcore,
unemployment and a whole new wonderful word for him.
Freedom.

ARGUS (pseud.), 1951 *Math You Can't Use* Ben Klemens, 2005-11-28 This lively and innovative book is about computer code and the legal controls and restrictions on those who write it The widespread use of personal computers and the Internet have made it possible to release new data or tools instantaneously to virtually the entire world However while the digital revolution allows quick and extensive use of these intellectual properties it also means that their developers face new challenges in retaining their rights as creators Drawing on a host of examples Ben Klemens describes and analyzes the intellectual property issues involved in the development of computer software He focuses on software patents because of their powerful effect on the software market but he also provides an extensive discussion of how traditional copyright laws can be applied to code The book concludes with a discussion of recommendations to ease the constraints on software development This is the first book to confront these problems with serious policy solutions It is sure to become the standard reference for software developers those concerned with intellectual property issues and for policymakers seeking direction It is critical that public policy on these issues facilitates progress rather than hindering it There is too much at stake *The New Leader*, 1951 *The Bulletin*, 1984-09 *Inquiry*, 1983 *The Freeman* John Chamberlain, Henry Hazlitt, 1950

Stalin's Failed Alliance Michael Jabara Carley, 2024-03-26 In the spring of 1936 the Soviet effort to build an anti Nazi alliance was failing Stalin continued nevertheless to support diplomatic efforts to stop Nazi aggression in Europe In Stalin s

Failed Alliance the sequel to Stalin's Gamble Michael Jabara Carley continues his re-evaluation of European diplomacy during the critical events between May 1936 and August 1939 This narrative history examines the great crises of the pre-war period the Spanish Civil War Anschluss and Munich accords as well as both the last Soviet efforts to organize an anti-Nazi alliance in the spring-summer of 1939 and Moscow's shocking volte-face the signing of the Nazi-Soviet non-aggression pact Carley's history traces the lead-up to the outbreak of war in Europe on 1 September 1939 and sheds light on the Soviet Union's efforts to organize a defensive alliance against Nazi Germany in effect rebuilding the anti-German Entente of the First World War The author argues for the sincerity of Soviet overtures to the western European powers and that the non-aggression pact was a last-ditch response to the refusal of other states especially Britain and France to conclude an alliance with the USSR against Nazi Germany Drawing on extensive archival research in Soviet and Western archival papers Stalin's Failed Alliance aims to see the European crisis of the 1930s through Soviet eyes *Intellectual Property in the New Technological Age* Robert P. Merges, Peter Seth Menell, Mark A. Lemley, 2000 A textbook that can be used for a comprehensive introductory course on intellectual property rights or parts of it used in such courses as a survey of intellectual property law with an emphasis on technology or of the protection of new technologies or a more traditional course on copyright and trademark **1939** Michael Jabara Carley, 1999 At a crucial point in the twentieth century as Nazi Germany prepared for war negotiations between Britain France and the Soviet Union became the last chance to halt Hitler's aggression Incredibly the French and British governments dallied talks failed and in August 1939 the Soviet Union signed a non-aggression pact with Germany Michael Carley's gripping account of these negotiations is not a pretty story It is about the failures of appeasement and collective security in Europe It is about moral depravity and blindness about villains and cowards and about heroes who stood against the intellectual and popular tides of their time Some died for their beliefs others labored in obscurity and have been nearly forgotten In 1939 they sought to make the Grand Alliance that never was between France Britain and the Soviet Union This story of their efforts is background to the wartime alliance created in 1941 without France but with the United States in order to defeat a demonic enemy 1939 is based upon Mr Carley's longtime research on the period including work in French British and newly opened Soviet archives He challenges prevailing interpretations of the origins of World War II by situating 1939 at the end of the early cold war between the Soviet Union France and Britain and by showing how anti-communism was the major cause of the failure to form an alliance against Hitler 1939 was published on September 1 the sixtieth anniversary of the Nazi invasion of Poland and the start of the war **Photoplay Movies & Video**, 1983
