Moses Of The New World:

Once We Were Slaves Laura Arnold Leibman, 2021-07-12 *Once We Were Slaves* tells the story of a brother and sister who were born enslaved Christians in Barbados yet ended up among the wealthiest white Jews in New York Tracing the siblings extraordinary journey throughout the Atlantic world Leibman examines artifacts they left behind family heirlooms and official documents to show how this transformation was possible Though their affluence was exceptional their story mirrors that of the largely forgotten population of mixed African and Jewish ancestry that constituted as much as ten percent of the Jewish communities in the New World and challenges current notions regarding Jews and race in early America

Roulter, 2017-12-06 This book argues that the design of built spaces influences civic attitudes including prospects for social equality and integration in America Key American architects and planners including Frederick Law Olmsted Frank Lloyd Wright Robert Moses and the New Urbanists not only articulated unique visions of democracy in their extensive writings but also instantiated those ideas in physical form Using criteria such as the formation of social capital support for human

capabilities and environmental sustainability the book argues that the designs most closely associated with a communally inflected version of democracy such as Olmsted's public parks or various New Urbanist projects create conditions more favorable to human flourishing and more consistent with a democratic society than those that are individualistic in their orientation such as urban modernism or most suburban forms Eating Religiously Nir Avieli, Fran Markowitz, 2023-10-24 This book the first of its kind critically analyzes the conjunctions of 21st century food faith and society It aims to provide a fresh approach that theorizes the culinary sphere in its association with morality identity justice and the sublime In a changing climate of food fads diet plans gastropolitics and fusion tastes this edited volume interrogates analyzes and critiques various situations in which food the state civil society gender race and faith intersect and even transmute Informed by emergent post secularist views of religion's and novel approaches to twenty first century forms of mobility and fixity the book's primary aim is to ponder through ethnography the manifold meanings of food eating and commensality as dynamic social and religious practices The main goal of Eating Religiously Food and Faith in the 21st Century is to present cutting edge anthropological research that examines the causes effects meanings and repercussions of theoretical and real world relationships between culinary practices and religion identity politics and national pride The chapters in this book were originally published as a special issue of Food Culture and Society **Potential History** Ariella Aïsha Azoulay, 2019-11-19 A passionately urgent call for all of us to unlearn imperialism and repair the violent world we share from one of our most compelling political theorists In this theoretical tour de force renowned scholar Ariella Aïsha Azoulay calls on us to recognize the imperial foundations of knowledge and to refuse its strictures and its many violences Azoulay argues that the institutions that make our world from archives and museums to ideas of sovereignty and human rights to history itself are all dependent on imperial modes of thinking Imperialism has segmented populations into differentially governed groups continually emphasized the possibility of progress while it tries to destroy what came before and voraciously seeks out the new by sealing the past away in dusty archival boxes and the glass vitrines of museums By practicing what she calls potential history Azoulay argues that we can still refuse the original imperial violence that shattered communities lives and worlds from native peoples in the Americas at the moment of conquest to the Congo ruled by Belgium's brutal King Leopold II from dispossessed Palestinians in 1948 to displaced refugees in our own day In Potential History Azoulay travels alongside historical companions an old Palestinian man who refused to leave his village in 1948 an anonymous woman in war ravaged Berlin looted objects and documents torn from their worlds and now housed in archives and museums to chart the ways imperialism has sought to order time space and politics Rather than looking for a new future Azoulay calls upon us to rewind history and unlearn our imperial rights to continue to refuse imperial violence by making present what was invented as past and making the repair of torn worlds the substance of politics The Nation, 1882 **Westminster Commentaries** D. A Course of Meditations for Most Days of the Year Richard Meux Benson,1876 **Literature and Ecotheology** George B. Handley,2024-07-22 Literature and Ecotheology From Chaos to Cosmos challenges us in a time of climate crisis to find more common ground between the dual projects of ecocriticism and ecotheology This book argues that in our postsecular age literature has become an important repository of theological wisdom that can like formal work in ecotheology provide the moral grounds for environmental care However for any cosmological understanding to be adequate to the challenges before us it must be responsive to the often painful contingencies and uncertainties that inhere in the cosmos something that both ecocriticism and ecotheology have often neglected After a treatment of the ecocritical and ecotheological questions that pertain to the religious secular divide the study then turns to four contemporary American writers Annie Dillard Cormac McCarthy Marilynne Robinson and David James Duncan as examples Each uses the contingency of literary form and its promise of wholeness in order to imagine reasons for hope in light of the unpredictability and untold human and more than human suffering that lie at the heart of nature The book will be of interest to students scholars and researchers interested in ecotheology religious studies environmental literature the environmental humanities and environmental studies more broadly It offers a needed paradigm shift in how Western societies have tended to misuse both secularity and religion *The United Synagogue Recorder* ,1926
