## **Moses The Victorian Jew:**

*Moses, the Victorian Jew* George Collard, 1990      **Victorian Jews Through British Eyes** Anne Cowen, Roger Cowen, 1986-12-11 When Queen Victoria came to the throne in 1837 Britain was home to only 30 000 Jews and they did not yet have full political rights By the end of the century their numbers had increased about sevenfold and practising Jews had taken their places in both the House of Commons and the House of Lords Victoria's reign therefore saw a tremendous change in the profile of Jews within British society The Victorian period was also one of economic transition for British Jews While initially in a narrow range of predominantly working class or marginal occupations with only a small upper class lite Jews became increasingly middle class during these years they began to enter the professions and to move from inner London to fashionable suburbs Increasingly Britain's Jews were British born and of British descent and proclaimed their loyalty to British ideals From 1881 on however the position changed dramatically a mass of Jewish immigrants arriving from Russia made conspicuous by their foreign dress appearance language and habits prompted the emergence of an Aliens Question into the British political arena The image of Jews changed yet again All these developments were picked up in the illustrated magazines of the time the object of a magazine is to interest its readers and the unfamiliar may be more compelling reading than the commonplace To illustrate the social history of the Jews in Victorian Britain the authors therefore combed the Illustrated London News Punch and The Graphic and selected nearly 150 illustrations with commentary to show how the British image of the Jew developed in this period The topics considered include early Victorian attitudes to Jews the leading Jewish families and other prominent Jews the Jewish way of life immigrant Jews Jewish life abroad and the Jew in art      *The Jewish Victorian* Doreen Berger, 1999 Entries are taken from the Jewish Chronicle Jewish Record and the Jewish World

*Religion and the Great Exhibition of 1851* Geoffrey Cantor, 2011-02-24 The Great Exhibition of 1851 is routinely portrayed as a manifestly secular event which was confined to celebrating the success of science technology and manufacturing in the mid Victorian age Geoffrey Cantor presents an innovative reappraisal of the Exhibition demonstrating that it was widely understood by contemporaries to possess a religious dimension and that it generated controversy among religious groups Prince Albert bestowed legitimacy on the Exhibition by proclaiming it to be a display of divine providence whilst others interpreted it as a sign of the coming Apocalypse With anti Catholic feeling running high following the recent papal aggression many Protestants roundly condemned those exhibits associated with Catholicism and some even denounced the Exhibition as a Papist plot Catholics for their part criticized the Exhibition as a further example of religious repression Several evangelical religious organisations energetically rose to the occasion considering the Exhibition to be a divinely ordained opportunity to make converts especially among heathens and foreigners Jews generally welcomed the Exhibition as did Unitarians Quakers Congregationalists and a wide spectrum of Anglicans but all for different reasons Cantor explores this diversity of perception through contemporary sermons and most importantly the highly differentiated religious press

Taken all together these religious responses to the Exhibition shed fresh light on a crucial mid century event

**Victorians and Their Animals** Brenda Ayres, 2018-12-07 This book *Victorians and Their Animals: Beast on a Leash* investigates the notion that British Victorians did see themselves as naturally dominant species over other humans and over animals. They conscientiously hegemonically were determined to rule those beneath them and the animal within themselves albeit with varying degrees of success and failure. The articles in this collection apply posthuman and other theories including queer postcolonialism, deconstruction and Marxism in their exploration of Victorian attitudes toward animals. They study the biopolitical relationships between human and nonhuman animals in several key Victorian literary works. Some of this book's chapters deal with animal ethics and moral aesthetics. Also being studied is the representation of animals in several Victorian novels as narrative devices to signify class status and gender dynamics either to iterate socially acceptable mores or to satirize hypocrisy or breach of behavior or to voice social protest. All of the chapters analyse the interdependence of people and animals during the nineteenth century.
