**Thomas Carlyle**

## **Mother Bound:**

**Mother Bound** Jill Johnston, 1983 The first volume of an extraordinary autobiography that shows one life against the backdrop of social forces that shaped it explores the great complexity of identity and inquires into the nature of legitimacy Her life had been molded by a secret Mother Bound is the opening chapter in a detective story a search to find both a real father and the motives hidden in the given text of a life a mother's strenuous efforts to protect her child from the realities a father represents

Reproductions of Banality Alice Yaeger Kaplan, Reproductions of Banality was first published in 1986 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions An established fascist state has never existed in France and after World War II there was a tendency to blame the Nazi Occupation for the presence of fascists within the country Yet the memory of fascism within their ranks still haunts French intellectuals and questions about a French version of fascist ideology have returned to the political forefront again and again in the years since the war In Reproductions of Banality Alice Yaeger Kaplan investigates the development of fascist ideology as it was manifested in the culture of prewar and Occupied France Precisely because it existed only in a gathering or formative stage and never achieved the power that brings with it a bureaucratic state apparatus French fascism never lost its utopian communal elements or its consequent aesthetic appeal Kaplan weighs this fascist aesthetic and its puzzling power of attraction by looking closely at its material remains the narratives slogans newspapers and film criticism produced by a group of writers who worked in Paris in the 1930s and early 1940s their most real moment These writers include Pierre Drieu la Rochelle Louis Ferdinand Celine Lucien Rebatat Robert Brasillach and Maurice Bardeche as well as two precursors of French fascism Georges Sorel and the Italian futurist F T Marinetti who made of the airplane an industrial carrier of sexual fantasies and a prime mover in the transit from futurism to fascism Kaplan's work is grounded in the major Marxist and psychoanalytic theories of fascism and in concepts of banality and mechanical reproduction that draw upon Walter Benjamin Emphasizing the role played by the new technologies of sight and sound she is able to suggest the nature of the long repressed cultural and political climate that produced French fascism and to show by implication that the mass marketing of ideology in democratic states bears a family resemblance to the fascist mode of an earlier time

**Men Under Construction** Murray Stein, 2023-09-01 Today more than ever men are challenged to take steps toward greater consciousness and psychological development In these lectures Murray Stein describes five eras or stages in a lifelong process of psychological and spiritual growth as well as speaking about friendship between men and the archetypal gestures of fathering The lectures are intended to help men of all ages to orient themselves in their lives as they search for meaning and seek personal development This is a very personal book made up of three series of lectures Murray Stein gave in the 1980's Although the times have changed since then the basic issues have not and the Zeitgeist remains one of ambiguity about male identity and a man's responsibilities toward himself his children and the world

**Indices and Identity** Robert Fiengo, Robert May, 1994 Under what conditions are expressions of a language the same when are they different Indices and Identity focuses on this question in the context of the theory of anaphora and on the role of indices in characterizing syntactic and semantic identity of expressions Fiengo and May develop two main themes within the theory of anaphora The first pertains to the meaning of coindexing and non coindexing the correspondence between indexical relations among expressions and the valuation relation that holds among them while the second is the development of Dependency Theory the theory of the relations of occurrences of indices The novelty of Fiengo and May's approach lies with their characterization of indexical dependencies and the conditions under which structures manifest the same or different dependency In particular Indices and Identity emphasizes issues raised by strict and sloppy identity in ellipsis exploring what Fiengo and May call the eliminative puzzles of ellipsis The significance of these puzzles is that they show the shortcomings of current theories of anaphora in ellipsis while illustrating an application of Dependency Theory to complex cases of strict and sloppy identity Elliptical contexts in turn lead to consideration of the embedding of the formal syntactic notions of identity arising from indices and dependencies within more general notions of structural identity This relates to a consideration of the foundations of reconstruction which the authors argue is syntactic identity up to indexical identity and vehicle change variation in the syntactic form of expression of arguments The book concludes with a discussion of the relation of reconstruction logical representation in grammar and the application of grammatical constraints The discussion focuses on antecedent contained deletion and stands independently as a comprehensive study of this construction Linguistic Inquiry Monograph No 24
