**The morphology of the modern French verb** Michael H. Gertner, 1980      **The Morphology of the Modern French Verb** Michael Howard Gertner, 1971      **The Vocabulary of Modern French** Hilary Wise, 2003-10-04 The Vocabulary of Modern French provides a fresh insight into contemporary French With this book Hilary Wise offers the first comprehensive overview of the modern French vocabulary its historical sources formal organisation and social and stylistic functions Topics covered include external influences on the language word formation semantic change style and register In addition the author looks at the relationship between social and lexical change and examines attempts at intervention in the development of the language Each chapter is concluded by notes for further reading and by suggestions for project work which are designed to increase awareness of specific lexical phenomena and enable the student reader to use lexicographic databases of all kinds The Vocabulary of Modern French is an accessible and fascinating study of the relationship between a nation and its language as well as providing a key text for all students of modern French      **The Cognitive System of the French Verb** John Hewson, 1997-01-01 This study is based on the writings and teaching of Gustave Guillaume 1883 1960 one of the earliest proponents of what is today called Cognitive Linguistics It offers 1 a much needed presentation in English of Guillaume's view of the French system 2 the clarifications added by his successors and 3 much empirical detail added by the author from his own extensive experience with the material The word system in this work as explained in the very first chapter is intended in the Saussurian sense of a closed set of contrasts The method is first briefly applied to English in order to familiarize the reader with the methodological concepts and terminology and comparisons are made with the general outline of the French system The major sub systems of the French verb are analysed in the four central chapters 4 7 entitled Aspect Voice Tense Mood followed by a chapter on systemic comparison and two final chapters of detailed analysis of the verbal morphology and its relevance to the cognitive system      Theoretical Morphology of the French Verb James Foley, 1979-01-01 The analysis of French verbs presented in this monograph is neither a synchronic nor a diachronic description but rather a theoretical achronic analysis whose goal is the explanation of the historical phonetic development of the French verb in terms of changes in the underlying abstract morphological forms One of the basic premises of this book is that the French superficial phonetic forms are not derived from the Latin superficial phonetic forms but that both are derived from abstract etymological forms      **The French Language Today** Adrian Battye, Marie-Anne Hintze, Paul Rowlett, 2003-09 This book provides a comprehensive introduction to the French language from the perspective of modern linguistics Features include a further reading guide at the end of each chapter a glossary of linguistic terms a bibliography and index      *The Morphology of modern french verbs* Michael H.. Gertner, 1973      **The Modern Language Journal** , 1923 Includes section Reviews      **The Year's Work in Modern Language Studies** , 1931      *A Reference Grammar of Modern French* Anne Judge, F. G. Healey, 1995 A Reference Grammar of Modern French has established itself as the standard English language

reference grammar for the French language It provides teachers students and others interested in the French language with a comprehensive accessible and jargon free guide to the forms and structures of French as it is currently spoken and written in France and in the rest of the French speaking world The scope of the grammar is very broad dealing with both spoken and written French Levels of usage literary educated formal informal and slang are specified so that the importance of context in the use of language is recognized From publisher s description      Library of Congress Catalog Library of Congress,1970

*Linguistic Change in French* Rebecca Posner,1997 What is French and how has it changed over time Can we distinguish language history from historical linguistics and language change from linguistic change These questions are explored using copious material from the history of the French language concentrating on changes in the relatively modern period in particular Posner explains how change comes about and how changes at different levels of language interact and the role of sociological and ideological factors is set against the internal mechanisms that trigger change This work makes a substantial contribution to the theory of linguistic change as well as to discussion of the relationship between language and history in French speaking areas including Canada and French Creole speaking countries      **Linguistics and Language Behavior Abstracts** ,1994      Comprehensive Dissertation Index, 1861-1972: Language and literature Xerox University Microfilms,1973      **Archivum Linguisticum** ,1975 A review of comparative philology and comparative linguistics      **The French Review** James Frederick Mason,Hélène Harvitt,1977      *International Books in Print* ,1991      Library of Congress Catalogs Library of Congress,1976      *Das Wort* Igor' Aleksandrovič Mel'čuk,1976      **General Linguistics** ,1973
