chain reaction down the coast More than a thousand subscribers in the port towns pledged money and began to build nine warships with little government oversight Among the subscription ships were the Philadelphia later lost on the rocks at Tripoli Essex the first American warship to round the Cape of Good Hope and Boston which captured the French corvette Le Berceau This book is the first to explore in depth the subject of subscribing for warships Frederick Leiner explains how the idea materialized who the subscribers and shipbuilders were how the ships were built and what contributions these ships made to the Quasi War against France Along the way he also offers significant insights into the politics of what is arguably the most critical period in American history The Cumulative Book Index ,1905 A world list of books in the English language Annual List of New and Important Books Added to the Public Library of the City of Boston Boston Public Library,1905 **Annual List of New and Important Books Added to the Public Library of the City of Boston** ,1904
