**Moses Hess, Utopian Socialist** John Weiss,1960      *Fifty Key Jewish Thinkers* Dan Cohn-Sherbok,2007-06-11 *Fifty Key Jewish Thinkers* is a panoramic survey of over 2 000 years of Jewish thought religious and secular ancient and modern Now in its second edition this essential reference guide contains new introductions to the lives and works of such thinkers as Hannah Arendt Immanuel Levinas Judith Plaskow Sigmund Freud and Walter Benjamin Also including fully updated guides to further reading on figures from the middle ages through to the twenty first century historical maps and a chronology placing the thinkers in context this is an essential and affordable one volume reference to a rich and complex tradition      Marx and Marxism Gregory Claeys,2018-04-24 A new biography of Karl Marx tracing the life of this titanic figure and the legacy of his work Karl Marx remains the most influential and controversial political thinker in history He died quietly in 1883 and a mere eleven mourners attended his funeral but a year later he was being hailed as the Prophet himself whose name and writings would endure through the ages He has been viewed as a philosopher economist historian sociologist political theorist even a literary craftsman But who was Marx What informed his critiques of modern society And how are we to understand his legacy In *Marx and Marxism* Gregory Claeys a leading historian of socialism offers a wide ranging accessible account of Marx s ideas and their development from the nineteenth century through the Russian Revolution to the present After the collapse of the Soviet Union his reputation seemed utterly eclipsed but now a new generation is reading and discovering Marx in the wake of the recurrent financial crises growing social inequality and an increasing sense of the injustice and destructiveness of capitalism Both his critique of capitalism and his vision of the future speak across the centuries to our times even if the questions he poses are more difficult to answer than ever      **Threshold of a New World** Lloyd S. Kramer,2019-05-15 *Threshold of a New World* examines two broad themes in modern European intellectual history the importance of exile as a formative experience in the lives and thought of influential European writers and the role of July Monarchy Paris as a unique social context that contributed decisively to the development and diffusion of modern European thought      Routledge Encyclopedia of Philosophy: Index Edward Craig,1998 Volume seven of a ten volume set which provides full and detailed coverage of all aspects of philosophy including information on how philosophy is practiced in different countries who the most influential philosophers were and what the basic concepts are      The History of the Social Movement in France, 1789-1850 Lorenz von Stein,1964      The New Leader ,1960-07      The Journal of economic history ,1961      *Three German Utopian Socialists* John Weiss,1980      *The Frock-Coated Communist* Tristram Hunt,2009-04-30 Friedrich Engels is one of the most attractive and contradictory figures of the nineteenth century Born to a prosperous mercantile family in west Germany he spent his career working in the Manchester cotton industry riding to the Cheshire hounds and enjoying the comfortable middle class life of a Victorian gentleman Yet Engels was also the co founder of international communism the philosophy which in the 20th century came to control one third of the human race He was the co author of *The Communist*

Manifesto a ruthless party tactician and the man who sacrificed his best years so Karl Marx could write *Das Kapital* Tristram Hunt relishes the diversity and exuberance of Engels's era how one of the great bon viveurs of Victorian Britain reconciled his raucous personal life with this uncompromising political philosophy Set against the backdrop of revolutionary Europe and industrializing England of Manchester mills Paris barricades and East End strikes it is a story of devoted friendship class compromise ideological struggle and family betrayal

**The Political Ideas of Marx and Engels: Marxism and totalitarian democracy, 1818-1850** Richard N. Hunt, 1974 The imposing growth of non Communist scholarship on Marx during the last several years has swept away many Cold War vulgarities and by focusing interest on his early philosophical writings exposed the profound humanist roots of Marx's value system But there has been no equivalent volume of new interest in the specifically political ideas and values of Marx and Engels The conventions of the Cold War assign the two men unambiguously to the totalitarian camp identifying them completely with the repressive one party dictatorships that have been created in their names Communists themselves while rejecting the label totalitarian have been equally insistent that Marx and Engels opposed Western style bourgeois democracy and favored proletarian dictatorship under the guidance of a single vanguard party at least until the mythic day when the state itself would disappear excerpt from the Preface of volume 1
