Snyder, 2019-11-29 Lucy Snyder s stories are the sort that carry you away to unusual places usually dark ones and this collection is a perfect example As the follow up to the Bram Stoker Award winning collection *Soft Apocalypses* it contains plenty of darkly imaginative tales Many of these stories including the title piece are heavily influenced by the work of H P Lovecraft and *The King in Yellow* mythos They whisper madly among each other creating weird echoes Like the black stars of theoretical astronomy they are dense entities born from polarization so strong that instead of collapsing into nothingness a black hole they instead form dark constellations burning dimly with spectral light *Mostly Monsters* John Robert Colombo, 1995 **Computational Phenotypes** Sergio Balari, Guillermo Lorenzo González, 2013 This is a book about language as a species typical trait of humans It argues that language is not so exceptional after all as according to the authors it is just the human version of a rather common and conservative organic system that they refer to as the Central Computational Complex Exploring the Collective Unconscious in the Age of Digital Media Schafer, Stephen Brock, 2016-01-28 For decades we have witnessed the emergence of a media age of illusion that is based on the principles of physics the multidimensionality immateriality and non locality of the unified field of energy and information as a virtual reality As a result a new paradigm shift has reframed the cognitive unconscious of individuals and collectives and generated a worldview in which mediated illusion prevails *Exploring the Collective Unconscious in a Digital Age* investigates the cognitive significance of an altered mediated reality that appears to have all the dimensions of a dreamscape This book presents the idea that if the digital media sphere proves to be structurally and functionally analogous to a dreamscape the Collective Unconscious researched by Carl Jung and the Cognitive Unconscious researched by George Lakoff are susceptible to research according to the parameters of hard science This pivotal research based publication is ideally designed for use by psychologists theorists researchers and graduate level students studying human cognition and the influence of the digital media revolution The Viatorian , 1910 Mythical Monsters Charles Gould, 1886 *That Time I Got Reincarnated as a Slime, Vol. 17 (light novel)* Fuse, 2023-12-12 *DAYS OF THEIR LIVES* The series s first short story collection takes a deep dive into the epic tale s fantasy world and what its characters get up to when Rimuru isn t running the show Gard Mj llmile the

most powerful human member of Tempest's government is up to some less than proper dealings in the Western Nations Velgrynd gets involved with a familiar looking planet as she traces the trail of her lover Caligulio starts facing up to his past as he strives to rebuild the Empire and Raine Primal Demon servant of the demon lord Guy Crimson has a complaint or two about her toxic work environment All that plus an extra tale you won't want to miss in this stellar collection *Kissing Monsters Collection 1* Lynn Robin, Her name is Kiss She travels the world to find monsters to kiss and turn them into angels for the world has too many monsters and too few angels she believes too many shadows and too few stars in the sky But then she crosses paths with Zane a young human man a lost and lonely cello player who tells her about the Collector a monster who would turn her into a demon if she'd kiss him The Collector wants and claims everything that catches his attention And so he starts hunting for Kiss Will she run Will she stay and fight Or could Zane a mere human save her instead Follow the love story of Kiss and Zane in a world of monsters and angels in this collection of the first four books in the Kissing Monsters series
