## Open City:

**Roberto Rossellini's Rome Open City** Sidney Gottlieb, 2004-06-14 Roberto Rossellini's *Rome Open City* instantly markedly and permanently changed the landscape of film history. Made at the end of World War II, it has been credited with initiating a revolution in and reinvention of modern cinema. Bold claims that are substantiated when its impact on how films are conceptualized, made, structured, theorized, circulated, and viewed is examined. This 2004 volume offers a fresh look at the production history of *Rome Open City*, some of its key images, and particularly its representation of the city and various types of women, its cinematic influences and affinities, the complexity of its political dimensions, including the film's vision of political struggle and the political uses to which the film was put, and the legacy of the film in public consciousness. It serves as a well-illustrated, up-to-date and accessible introduction to one of the major achievements of filmmaking. **Transit Lit** Cameron Leader-Picone, 2025-12-15 Explores new forms of cosmopolitan identity constructed in contemporary diasporic fictions. The expanding number of migrants to the United States from continental Africa since the 1960s has led to a flourishing twenty-first century literary corpus by immigrants and the children of immigrants. *Transit Lit: Fictions of Migration in Twenty-First Century African Immigrant Literature* analyzes key works by African immigrant authors such as Chimamanda Ngozi Adichie, Teju Cole, and Yaa Gyasi to argue that such texts reveal the tensions between the authors' own cosmopolitan ideals and a necessary critique of how such ideals become co-opted and commodified within contemporary geopolitics. Cameron Leader-Picone offers a new conceptual framework for reading contemporary diasporic texts that do not fit easily into national or continental traditions or previous literary models. Instead, he argues for the need to embrace the overlapping instabilities of meaning, identity, and citizenship that characterize twenty-first century diasporic movement in an interconnected world. These texts and the constructions of identity that they trace map the terrain of contemporary migration.

Subcommittee on Housing and Community Development, 1977. *Traffic Congestion and Land Use Regulations* Tatsuhito Kono, Kirti Kusum Joshi, 2019-08-16 *Traffic Congestion and Land Use Regulations: Theory and Policy Analysis* explores why, when, where, and how land use regulations are utilized in cities to address road transportation congestion. The book shows how to design optimal density and zonal regulations for efficient traffic flow in cities, examines land use regulations using optimal control theory, and offers detailed insights into the mechanisms behind optimal regulations and techniques for exploring spatially optimal policies. Discussions from this book will help highlight the practical usefulness of land use regulations for the maximization of urban social welfare. **The Army Lawyer**, 1995. *Planning for Open City* Planners for Equal Opportunity.
