Blackboard Lewis Buzbee, 2014-08-05 A captivating meditation on education from the author of *The Yellow Lighted Bookshop* In *Blackboard* Lewis Buzbee looks back over a lifetime of experiences in schools and classrooms from kindergarten to college and beyond He offers fascinating histories of the key ideas informing educational practice over the centuries which have shaped everything from class size to the layout of desks and chairs Buzbee deftly weaves his own biography into this overview approaching his subject as a student a father and a teacher In so doing he offers a moving personal testament to how he an average student in danger of flunking out of high school became the first in his family to graduate from college He credits his success to the well funded California public school system and bemoans the terrible price that state is paying as a result of funding being cut from today's budgets For Buzbee the blackboard is a precious window into the wider world which we ignore at our peril Both anecdotal and eloquent *The Yellow Lighted Bookshop* is a tribute to those who crave the cozy confines of a bookshop a place to be alone among others and savor a bountiful literary buffet Booklist starred review

Education for Extinction David Wallace Adams,1995 The last Indian War was fought against Native American children in the dormitories and classrooms of government boarding schools Only by removing Indian children from their homes for extended periods of time policymakers reasoned could white civilization take root while childhood memories of savagism gradually faded to the point of extinction In the words of one official Kill the Indian and save the man Education for Extinction offers the first comprehensive account of this dispiriting effort Much more than a study of federal Indian policy this book vividly details the day to day experiences of Indian youth living in a total institution designed to reconstruct them both psychologically and culturally The assault on identity came in many forms the shearing off of braids the assignment of new names uniformed drill routines humiliating punishments relentless attacks on native religious beliefs patriotic indoctrinations suppression of tribal languages Victorian gender rituals football contests and industrial training Especially poignant is Adams s description of the ways in which students resisted or accommodated themselves to forced assimilation Many converted to varying degrees but others plotted escapes committed arson and devised ingenious strategies of passive resistance Adams also argues that many of those who seemingly cooperated with the system were more than passive players in this drama that the response of accommodation was not synonymous with cultural surrender This is especially apparent in his analysis of students who returned to the reservation He reveals the various ways in which graduates struggled to make sense of their lives and selectively drew upon their school experience in negotiating personal and tribal survival in a world increasingly dominated by white men The discussion comes full circle when Adams reviews the government s gradual retreat from the assimilationist vision Partly because of persistent student resistance but also partly because of a complex and sometimes contradictory set of progressive humanitarian and racist motivations policymakers did eventually come to view boarding schools less enthusiastically Based upon extensive use of government archives Indian and teacher autobiographies and school newspapers Adams s moving account is essential reading for scholars and general readers alike interested in Western history Native American studies American race relations education history and multiculturalism **Bibliography of Museums and Museology** Metropolitan Museum of Art (New York, N.Y.). Library,1923 **The New Spirit in Drama & Art** Huntly Carter,1912
