**Message from the President of the United States, Communicating, in Answer to a Senate Resolution of June 3, 1878, a Copy of Correspondence Between the Governments of the United States and Great Britain in Regard to Inviting Other Maritime Powers to Accede to the Three Rules of Neutrality Laid Down in Article VI of the Treaty of May 8, 1871** United States. Department of State,1879    The Peace of Illusions Christopher Layne,2006 In a provocative book about American hegemony Christopher Layne outlines his belief that U S foreign policy has been consistent in its aims for more than sixty years and that the current Bush administration clings to mid twentieth century tactics to no good effect What should the nation s grand strategy look like for the next several decades The end of the cold war profoundly and permanently altered the international landscape yet we have seen no parallel change in the aims and shape of U S foreign policy The Peace of Illusions intervenes in the ongoing debate about American grand strategy and the costs and benefits of American empire Layne urges the desirability of a strategy he calls offshore balancing rather than wield power to dominate other states the U S government should engage in diplomacy to balance large states against one another The United States should intervene Layne asserts only when another state threatens regionally or locally to destroy the established balance

Drawing on extensive archival research Layne traces the form and aims of U S foreign policy since 1940 examining alternatives foregone and identifying the strategic aims of different administrations His offshore balancing notion if put into practice with the goal of extending the American Century would be a sea change in current strategy Layne has much to say about present day governmental decision making which he examines from the perspectives of both international relations theory and American diplomatic history
