## **Open Secrets:**

*The Fiction of Alice Munro* Brad Hooper, 2008-06-30 As a short story writer Alice Munro has achieved high critical and popular regard in both her native Canada and in the United States Indeed Munro has been adopted by the entire English speaking world as one of its own and her work has received many awards and honors In the U S she is roundly regarded as one of the best if not the best contemporary writers of the short story and one of the greatest living fiction writers Here Brad Hooper takes readers through her fiction work by work discussing the themes forms techniques and styles she employs to make her work come alive Munro has founded her own brand of the short story longer than traditionally practiced in the short story form and encompassing broader time frames Her stories are primarily character studies that explore the impact of physical and mental isolation in adolescence middle age and into elder years Hooper traces Munro's evolving definition of the short story form and surveys the fiction in an effort to elucidate the works for newcomers and enthusiasts alike

**Plunder** Brendan Ballou, 2023-05-02 The infuriating illuminating essential Kurt Anderson exposé of private equity what it is how it kills businesses and jobs how the government helps and how we stop it Private equity surrounds us Firms like Blackstone Carlyle and KKR are among the largest employers in America and hold assets that rival those of small countries Yet few understand what these firms are or how they work In *Plunder* Brendan Ballou explains how private equity has reshaped American business by raising prices reducing quality cutting jobs and shifting resources from productive to unproductive parts of the economy Ballou vividly illustrates how many private equity firms buy up retailers medical practices prison services nursing home chains and mobile home parks among other businesses using little of their own money to do it and avoiding debt and liability for their actions Forced to take on huge debts and pay extractive fees companies purchased by private equity firms are often left bankrupt or shells of their former selves with consequences to communities that long depended on them Perhaps most startling is Ballou's insight into how this is happening with the active support of various arms of the government But as Ballou reveals in an agenda for reining in the industry private equity can be stopped from wreaking further havoc

**Property Rights in Outer Space** Matthew Johnson, 2024-05-28 This book explores the role of private mining rights in the utopian imaginary of space colonisation It presents a transdisciplinary account of the new and evolving legislative frameworks that have been established in anticipation of commercial exploitation of the mineral resources of the off world frontier Written in an engaging style the book investigates a novel case study in the history of capitalism and the commons the emergence of a nascent space mining industry undergirded by a contentious legislative framework In 2015 the US passed laws that would recognise the claims of US corporations to own and sell space resources This unilateral act of pre-emptive law making would appear to contravene the terms of the UN Outer Space Treaty 1967 which declared that the exploration and use of outer space should be for the benefit of all mankind and not subject to national appropriation Using this central dynamic between privately held mining rights and outer space as a global commons

Matthew Johnson constructs an historical sociology of space mining from the deep historical roots of common and private property to the contemporary networks of neoliberalism that have engaged with the commercialisation of space activity. The anticipatory expansion of private property claims beyond the Earth both resonates with and problematises the terrain of political history such as the tensions between states and markets, public law and private power, the commons and exclusive property. The emerging cosmopolitics of off world private property mirrors and is often explicitly embedded within neoliberal geopolitics, prompting urgent questions about how we can reaffirm principles of democracy and common heritage in the international laws of Earth and space. This book is compelling reading for anyone interested in the social study of space law, economics, technology, politics and property rights.

The HIP Investor R. Paul Herman, 2010-03-09. A new breed of investing that combines making more money and making a difference. First there were the Profiteers, investors who sought to make money regardless of the cost to society. Then came the Do Gooders, investors who avoided bad companies and supported good ones based on philosophy over financials. Now this book introduces a brand new breed of investor: The HIP Investor. Written for those who want to profit handsomely while also building a better world, it will help you discover companies that are boosting the bottom line by solving key human needs through innovative products and services benefiting customers, engaging employees and delivering sustainable, profitable growth for their investors. That's the Human Impact Profit or HIP approach. In The HIP Investor, R. Paul Herman, creator of the HIP methodology, introduces a revolutionary system that allows investors to profit and make a positive impact. It values measurable results over policies and philosophies and shows how higher performing companies can deliver both human impact and profit for shareholders. This book provides a compelling, easy-to-use investor tool kit so you can quickly HIP your portfolio. Reveals the three questions you should ask when looking for a company to invest in. Illustrates how world problems can be solved for profit by companies and investors making informed decisions. You can make money while making a difference, and The HIP Investor is here to show you how.

Apartheid, Guns and Money Hennie van Vuuren, 2019-03-01. In its last decades, the apartheid regime was confronted with an existential threat. While internal resistance to the last whites-only government grew, mandatory international sanctions prohibited sales of strategic goods and arms to South Africa. To counter this, a global covert network of nearly fifty countries was built. In complete secrecy, allies in corporations, banks, governments and intelligence agencies across the world helped illegally supply guns and move cash in one of history's biggest money laundering schemes. Whistleblowers were assassinated and ordinary people suffered. Weaving together archival material, interviews and newly declassified documents, Apartheid, Guns and Money exposes some of the darkest secrets of apartheid's economic crimes, their murderous consequences, and those who profited: heads of state, arms dealers, aristocrats, bankers, spies, journalists and secret lobbyists. These revelations and the difficult questions they pose will both allow and force the new South Africa to confront its past.

**Scandal and Corruption in Congress** Michael J. Pomante II, 2022-11-07. Scandal and Corruption in Congress guides readers through the

history of corruption in Congress exploring policies outlawing corruption attempts to hide unethical behaviour getting caught  
 the repercussions of getting caught and how corruption in the U S compares to corruption in other nations     *The Editor*
