## **Opening Education:**

Opening Education Terry Evans, Daryl Nation, 2013-04-15 We live in a society with ever changing needs and expectations Education practitioners and policy makers need therefore to face the challenges of new economic social and technological conditions in their work There is a global concern to develop forms of education and training which are open to the demands of needs of learners and which are accessible at times and places suitable to those learners Governments institutions and practitioners are developing and implementing policies which reflect these trends The overall theme of this book is the relationship between government and organizational policies and the work of practitioners in open and distance learning The book does this by exploring a selection of international examples The authors many of them recognized experts write from a wide range of international and organizational perspectives Each one draws on significant experience within his or her field Terry Evans is Head of the Graduate School of Education at Deakin University He was the foundation director of the Master of Distance Education course there and has extensive experience teaching undergraduate and postgraduate students Daryl Nation is Deputy Head of the School of Humanities and Social Sciences at Monash University He is Associate Professor in the School and divides his time between policy development research and teaching

### **Opening Education to the Outside**

**World** Jian Li, Eryong Xue, 2022-08-31 This book examines the idea of opening education to the outside world in China since post COVID 19 It investigates the historical development of international education development in China and explores the internationalization of education system from various dimensions It also discusses the history of studying abroad at public expense since the 18th National Congress of the Communist Party of China as well as studying abroad at our own expense in China from the perspective of departmental coordination Sino foreign cooperation of running schools in China Confucius Institutes development in China Luban Workshop Development in China and running Chinese foreign cooperation education in China In addition this book also offers specific suggestion to address various problems of international education development in China during post COVID 19 This book will be particularly interest to scholars and researchers who are interested and work in research on China international education development

### **Opening Up Education**

Toru Iiyoshi, M. S. Vijay Kumar, 2008 Online version of MIT Press book has brief overview of book s content and provides links to open access PDF version of ebook as well as an iPaper version and a link to the MIT Press store for buying the print version In this collection of essays the authors who are leaders in open education explore the potential of open education to transform the economics and ecology of education The authors argue that we must develop not only the technical capability but also the intellectual capacity for transforming tacit pedagogical knowledge into commonly usable and visible knowledge by providing incentives for faculty to use and contribute to open education goods and by looking beyond institutional boundaries to connect a variety of settings and open source entrepreneurs
