Operatic Subjects The Evolution Of Self In Modern Opera:

Operatic Subjects Sandra Corse, 2000 This work examines the development of representations of selfhood in opera in the modern period It shows how notions of subjectivity current in various theories of modernism apply to operas especially those which were directly or indirectly influenced by Wagner These analyses reveal that operas may employ notions of subjectivity in various ways as embedded in a religious context as social critique or as a critique of individualism *The Cambridge Companion to Opera Studies* Nicholas Till, 2012-10-18 With its powerful combination of music and theatre opera is one of the most complex and yet immediate of all art forms Once opera was studied only as a stepchild of musicology but in the past two decades opera studies have experienced an explosion of energy with the introduction of new approaches drawn from disciplines such as social anthropology and performance studies to media theory genre theory gender studies and reception history Written by leading scholars in opera studies today this Companion offers a wide ranging guide to a rapidly expanding field of study and new ways of thinking about a rich and intriguing art form placing opera back at the centre of our understanding of Western culture over the past 400 years This book gives lovers of opera as well as those studying the subject a comprehensive approach to the many facets of opera in the past and today **Opera as Anthropology** Vlado Kotnik, 2016-09-23 This book contemplates the relationship between opera and anthropology It rests on the following central arguments on the one hand opera is quite a new and exotic topic for anthropologists while on the other anthropology is still perceived as an unusual approach to opera Both initial arguments are indicative of the current situation of the relationship between anthropological discipline and opera research The book introduces the work of anthropologists and ethnographers whose personal and professional affinity for opera has been explicated in their academic and biographical accounts Anthropological ethnological ethnographic and semiotic accounts of opera by Claude Lévi Strauss Michel Leiris William O Beeman Denis Laborde Paul Atkinson and Philippe Joseph Salazar establish that opera can be a pertinent object of anthropological interest ethnographic investigation cultural analysis and historical reflection By touching on opera not merely as a musical aesthetic or artistic category but as a social cultural historical and transnational phenomenon that over the last four centuries has significantly influenced and reflected the identity of Western culture and society this monograph suggests that opera and anthropology no longer need be alien to one another Prokofiev's Soviet Operas Nathan Seinen, 2019-09-05 Offers a critical and contextual study of the last four operas of Prokofiev the leading opera composer in Stalin's Soviet Union Postopera: Reinventing the Voice-Body Jelena Novak, 2016-03-09 Both in opera studies and in most operatic works the singing body is often taken for granted In Postopera Reinventing the Voice Body Jelena Novak reintroduces an awareness of the physicality of the singing body to opera studies Arguing that the voice body relationship itself is a producer of meaning she furthermore posits this relationship as one of the major driving forces in recent opera She takes as her focus six contemporary operas La Belle et la Bête Philip Glass Writing to Vermeer Louis Andriessen Peter

Greenaway Three Tales Steve Reich Beryl Korot One Michel van der Aa Homeland Laurie Anderson and La Commedia Louis Andriessen Hal Hartley which she terms postoperas These pieces are sites for creative exploration where the boundaries of the opera world are stretched Central to this is the impact of new media a de synchronization between image and sound or a redefinition of body voice gender relationships Novak dissects the singing body as a set of rules protocols effects and strategies That dissection shows how the singing body acts within the world of opera what interventions it makes and how it constitutes opera s meanings *Benjamin Britten Studies* Vicki P. Music, Theatre and Politics in Germany Nikolaus Bacht, 2006 Music theatre and politics have maintained a long standing relationship that continues to be strong The contributions in this volume bridge the conventional chronological division between late Romantic and modern music to thematize a wide array of i *Music and Ethics* Marcel Cobussen, Nanette Nielsen, 2016-04-22 It seems self evident that music plays more than just an aesthetic role in contemporary society In addition music s social political emancipatory and economical functions have been the subject of much recent research Given this it is surprising that the subject of ethics has often been neglected in discussions about music The various forms of engagement between music and ethics are more relevant than ever and require sustained attention Music and Ethics examines different ways in which music can in itself in a uniquely musical way contribute to theoretical discussions about ethics as well as concrete moral behaviour We consider music as process and music making as interaction Fundamental to our understanding is music s association with engagement including contact with music through the act of listening music as an immanent critical process that possesses profound cultural and historical significance and as an art form that can be world disclosive formative of subjectivity and contributive to intersubjective relations Music and Ethics does not offer a general musico ethical theory but explores ethics as a practical concept and demonstrates through concrete examples that the relation between music and ethics has never been absent

Principles of Subjective Anthropology Binggong Chen, 2023-03-27 This book puts forward the concept of subjective anthropology and outlines a theoretical system that will allow subjective anthropology to qualify as a new academic discipline in its own right In an effort to respond to the field s proper role as the science of humanity subjective analysis has been introduced into the study of anthropology The book fills two distinct gaps in our knowledge and understanding of modern man offering detailed descriptions of personality and of groups while also advancing the theory of structure and choice The

book formulates seven basic principles of subjective anthropology and divides anthropology into three major branches: subjective anthropology, cultural anthropology, and biological or physical anthropology, which can be further divided into sub-branches. The book pursues three key goals: advancing and developing the theoretical system of subjective anthropology; reconstructing the discipline of anthropology; and establishing a Chinese anthropology with Chinese characteristics, Chinese visions, and Chinese styles. *Publications of the Modern Language Association of America*, 2006.
