Operation Parakram The War Unfinished:

Operation Parakram V K Sood, Pravin Sawhney, 2003-06-23 On 1 October 2001 29 people were killed at the hands of the Jaish e Mohammed in a terrorist attack outside the Jammu and Kashmir Assembly India's immediate reaction was to insist that unless the US was able to rein in Pakistan it would be forced to take matters into its own hands which might be a setback to the US waged Operation Enduring Freedom in Afghanistan While President Musharraf immediately complied by condemning the act as one of terrorism the Talibanised militants attacked the Indian Parliament on 13 December 2001 Enraged the Government of India launched Operation Parakram an operation that ordered the general mobilisation of the army for war on 18 December 2001 When Operation Parakram was called off on 16 October 2002 without meeting its professed objectives it left many questions unanswered Why was Operation Parakram launched What were the military and political objectives Was the political leadership at all serious about the war What role did international pressure play in weakening the government's resolve At what stage did the government decide to opt out What did the military feel about this decision Does Operation Parakram have a future Written by the perfect combination of a senior army officer and a journalist specialising in defence strategy this important book answers these questions It traces the changing pattern of militancy in Jammu and Kashmir and discusses both the military and political aspects of the Operation The bottomline say the authors is that a war has yet to be fought and Operation Parakram is not over

Conventional Warfare in South Asia, 1947 to the Present Kaushik Roy, 2017-03-02 The essays included in this volume focus on conventional war on land sea and air fought by the states of South Asia and their impact on the host societies and economies The authors are drawn from academia and the military in India and Pakistan as well as from outside the subcontinent in order to give a wide perspective In the introduction the editors describe the changing contours of warfare in South Asia and the similarities and dissimilarities with warfare in the Middle East and South East Asia The volume highlights the influence of extra regional powers like China Russia and the US in providing arms munitions and shaping the texture of military doctrines and force structures of the South Asian powers

Fragile Frontiers Saroj Kumar Rath, 2015-06-03 Critical questions remain unanswered on the events of the cold blooded and devastating terror attacks in Mumbai on 26 November 2008 Investigative and introspective this book offers a lucid and graphic account of the ill fated day and traces the changing dynamics of terror in South Asia Using new insights it explores South Asia's regional dynamics of antagonism the ever present challenge to the frontiers of India Pakistan and the terrorism question the strife in Afghanistan and the self serving selective US war on terror This will be an engaging read for those interested in defence security and strategic studies politics international relations peace and conflict studies and South Asian studies as well as the general reader

Nuclear Proliferation in South Asia Sumit Ganguly, S. Paul Kapur, 2008-08-06 This edited volume explores competing perspectives on the impact of nuclear weapons proliferation on the South Asian security environment The spread of nuclear weapons is one of the world's foremost security concerns The effect of nuclear

weapons on the behaviour of newly nuclear states and the potential for future international crises are of pa *India's Military Strategy* S. Kalyanaraman, 2022-12-30 This book explores what military strategy is and how it is interconnected with policy on one hand and military operations on the other In the process it traces the transformation of the notion of strategy from its original military moorings to a more policy oriented and influenced conception and elaborates upon a tripartite framework of policy strategy and doctrine to think about understand and analyse the use of force The book explores the politics of India Pakistan conflict in order to root the study of Indian military strategy in the political sphere It discusses three main issues that have ensured the persistence of conflict incompatible national identities Pakistan s congenital quest for parity with and compulsion to challenge India and irreconcilable positions on the Kashmir issue The book argues that India has invariably pursued limited political aims that did not threaten Pakistan s survival or form of government or regime in power albeit containing a counter offensive elements It states that India employed the strategy of exhaustion during the Indian Army s campaigns in the 1947 48 conflict and 1965 war which made way to strategy of annihilation during the 1971 war East Pakistan but after Pakistan s acquisition of nuclear weapons capability the strategy is back to exhaustion The book highlights the importance of designing an overall military strategy for waging limited war and pursuing carefully calibrated political and military objectives by creatively combining the individual doctrines of the three services by establishing a Chief of Defence Staff system India and Nuclear Asia Yogesh Joshi, Frank O'Donnell, 2018-11-01 India s nuclear profile doctrine and practices have evolved rapidly since the country s nuclear breakout in 1998 However the outside world s understanding of India s doctrinal debates forward looking strategy and technical developments are still two decades behind the present India and Nuclear Asia will fill that gap in our knowledge by focusing on the post 1998 evolution of Indian nuclear thought its arsenal the triangular rivalry with Pakistan and China and New Delhi s nonproliferation policy approaches Yogesh Joshi and Frank O'Donnell show how India s nuclear trajectory has evolved in response to domestic regional and global drivers The authors argue that emerging trends in all three states are elevating risks of regional inadvertent and accidental escalation These include the forthcoming launch of naval nuclear forces within an environment of contested maritime boundaries the growing employment of dual use delivery vehicles and the emerging preferences of all three states to employ missiles early in a conflict These dangers are amplified by the near absence of substantive nuclear dialogue between these states and the growing ambiguity of regional strategic intentions Based on primary source research and interviews this book will be important reading for scholars and students of nuclear deterrence and India s international relations as well as for military defense contractor and policy audiences both within and outside South Asia *The Book Review* , 2004 **Agni** , 2003

India's Limited War Doctrine Ali Ahmed, 2012 **Data India** , 2003 *Second Strike* Rajesh Rajagopalan, 2005 In May 1998 India tested a series of nuclear devices in Pokharan Two weeks later Pakistan announced a matching series of its own tests A year later when the two countries had a bitter confrontation in Kargil the worst fears of proliferation pessimists

appeared to be coming true The alarm bells have never really stopped ringing since then In Second Strike Rajesh Rajagopalan challenges much of the conventional wisdom on the perceived nuclear danger in the region and suggests that the nuclear situation in South Asia is far less dangerous and much more stable than it is generally given credit for Presenting a threefold case the author focuses on the impact of nuclear doctrines on stability a hitherto neglected aspect of the nuclear debate and argues that Indian and Pakistani doctrines reduce the pressures on the two nuclear forces Next he presents the view that the doctrines of the two countries lessen the likelihood of accidents and other dangers such as terrorists stealing nuclear weapons the crucial role played by political leaders and contends that political leaders tighten control over nuclear weapons in critical situations *Strategic Studies Quarterly*, 2009 Faultlines, 2005 Terrorism and internal security in India *Journal of the United Service Institution of India* United Service Institution of India, 2004 **Complex Deterrence** T.
