Opposition And Democracy In South Africa:

Opposition and Democracy in South Africa Roger Southall, 2014-01-14 This collection examines the nature scope and prospects for political opposition under African National Congress political dominance **Political Liberalization and Democratization in Africa** Julius O. Ihonvbere, John Mukum Mbaku Esq., 2003-12-30 Since the late 1980s Africans have been engaged in efforts to transform their societies and provide themselves with more effective governance and economic structures Unfortunately most of these efforts have not progressed beyond simple elections The contributors to this volume provide strategies that Africans can use to deepen democracy improve resource allocation and enhance their ability to coexist peacefully Mbaku Ihonvbere and their contributors while adopting a critical approach to the study of African political economy take a stand against Afro pessimism They articulate an holistic agenda for addressing Africa s multifarious problems reject received knowledge and through a dialectical methodology draw attention to the centrality of social categories classes the state civil society the environment communities and patterns of change in the continent Relying on fieldwork hard data and critical reviews of the extant literature the volume highlights the importance of democracy and democratization to the urgent restructuring that Africa needs in the new globalization Paying attention to the continent s historical experiences and its specificities the contributors draw attention to the importance of grassroots action leadership and the need to constitutionally entrench civil liberties Political Opposition and Democracy in Sub-Saharan Africa Elliott Green, Johanna Söderström, Emil Uddhammar, 2016-04-08 This book takes a closer look at the role and meaning of political opposition for the development of democracy across sub Saharan Africa Why is room for political opposition in most cases so severely limited Under what circumstances has the political opposition been able to establish itself in a legitimate role in African politics To answer these questions this edited volume focuses on the institutional settings the nature and dynamics within and between political parties and the relationship between the citizens and political parties It is found that regional devolution and federalist structures enable political opposition to organize and gain local power as a supplement to influence at the central level Generally however opposition parties are lacking in organization and institutionalization as well as in their ability to find support in civil society and promote the issues that voters find most important Overall strong executive powers unchecked by democratic institutions in combination with deferential values and fear of conflict undermine legitimate opposition activity This book was originally published as a special issue of Democratization *Electoral Politics in South Africa* J. Piombo, L. Nijzink, 2005-12-09 Ten years into the new South Africa how does democracy function This volume provides a retrospective on a decade of elections and democracy in South Africa The book analyzes the evolution of the party system and electoral campaigns tracks changes in public opinion and voter motivations assesses the political implications of socioeconomic change depicts the evolution of parliament and the electoral system probes the often tense relationship between media and government analyzes the institutionalization the Independent Electoral Commission and finally argues

that South Africa is witnessing a normalization of politics The book speaks to a broad range of topics all linked through the electoral theme which get to the heart of many issues in contemporary South African politics **Politics in South Africa** Tom Lodge,2003 This well informed and crisply written introduction will appeal to both students of contemporary politics and general readers interested in the new democracy Book jacket Reflections on the 2019 South African General Elections Joleen Steyn Kotze,Narnia Bohler-Muller,2020-12-17 Reflections on the 2019 South African General Elections is a critical reflection on the key lessons of Elections 2019 in South Africa focusing on the future of the country s electoral democracy The volume engages questions on land election campaigns voter turnout voter apathy and how opposition parties will be forced to co exist in the context of declining electoral dominance the ANC once comfortably held An important reflection on the lessons of the 2019 South African General Elections the contributors ask Quo Vadis South Africa The 2019 General Elections marked a watershed in South Africa s political landscape The ANC under the banner of a narrative of regeneration and getting back on the moral path dipped below the 60 % mark for the first time in South Africa s democratic history This decline in electoral support for the party may be interpreted as a degeneration of the ANC through the loss of its moral stature the erosion of its integrity and disillusionment with its performance as a governing party Opposition political parties could not capitalise on this seeming disillusionment with the ruling ANC Caught in their own factional battles and in the midst of corruption scandals opposition parties were unable to successfully increase their share of the vote and capture the undecided and disillusioned voter Considering the future of South Africa s electoral democracy at 25 years of democracy Reflections on the 2019 South African General Elections will be of great interest to scholars of African Studies South Africa Governance and Elections The chapters in this book were originally published as a special issue of Politikon South African Journal of Political Studies **Comparative Constitutional Law in Africa** Rosalind Dixon,Tom Ginsburg,Adem Abebe,2022-12-06 This timely book is a crucial resource on the rich diversity of African constitutional law making a significant contribution to the increasingly important field of comparative constitutional law from a historically understudied region Offering an examination of substantive topics from multiple jurisdictions it emphasises issues of local importance while also providing varied perspectives on common challenges across the continent Journal of African Elections ,2004 **The Politics of Opposition in Contemporary Africa** Adebayo O. Olukoshi,1998 In South Africa Michael Neocosmos **Afrika Spectrum** ,2004 **Zimbabwe's Unfinished Business** Brian Raftopoulos,Stig Jensen,2003 *Special Issue: Opposition and Democracy in South Africa* Roger Southall,2001 **The Politics of Race in Britain and South Africa** Elizabeth Williams,2015-03-18 The postwar government of South Africa led by H F Verwoerd implemented wide ranging racial segregation laws beginning the open policy of apartheid in one of Africa s most prosperous and internationally influential states During the apartheid era the British government faced an uneasy dilemma while repudiating apartheid laws it maintained an ambiguous stance towards the South African government As black South African s were reduced to the

status of non citizens after the 1970 Citizenship Act increasing numbers of exiles and fugitives were finding refuge in Britain which was now home to a growing anti apartheid protest movement This is the first book to examine the British support for the anti apartheid movement among its own black communities Elizabeth Williams highlights the connection between domestic anti racism struggles and the struggle in South Africa showing how black Britons who were themselves fighting racism in British society identified and expressed solidarity with black South Africans during the Apartheid years Williams further assesses the way in which Black communities in Britain viewed Margaret Thatcher s support of South Africa despite the international call for sanctions Featuring the work of acclaimed documentary photographer and civil rights activist Vanley Burke this will be an essential book for students and scholars of race British history international relations post colonial studies and South African history Against All Odds Hussein Solomon,2011 Most of the chapters in this edited volume were originally commissioned as part of a programme developed by the South African Institute of International Affairs SAIIA on parliaments of the Southern African Development Community SADC The programme s central aim was to better understand the relationship between parliaments and civil society within SADC and to suggest practical methods to strengthen these relationships **Zimbabwe's Unfinished Business** Amanda Hammar,Stig Jensen,Brian Raftopoulos,2003 The dramatic changes in Zimbabwe s economic political and social landscapes since the 2000 elections referred to as the Zimbabwe crisis have raised complex critical questions at national regional and international levels This work addresses these points by focusing on the shifting discourses about and relationships between land state and citizenship It argues that these changing definitions and dynamics and their implications can best be understood in terms of a number of overlapping complete and incomplete projects of transformations or as unfinished business **Manipulating Political Decentralisation** Lovise Aalen,Ragnhild L. Muriaas,2017-10-12 Can autocrats establish representative subnational governments And which strategies of manipulation are available if they would like to reduce the uncertainty caused by introducing political decentralisation In the wake of local government reforms several states across the world have introduced legislation that provides for subnational elections This does not mean that representative subnational governments in these countries are all of a certain standard Political decentralisation should not be confused with democratisation as the process is likely to be manipulated in ways that do not produce meaningful avenues for political participation and contestation locally Using examples from Africa Lovise Aalen and Ragnhild L Muriaas propose five requirements for representative subnational governments and four strategies that national governments might use to manipulate the outcome of political decentralisation The case studies of Ethiopia Malawi South Africa and Uganda illustrate why autocrats sometimes are more open to competition at the subnational level than democrats Manipulating Political Decentralisation provides a new conceptual tool to assess representative subnational governments quality aiding us in building theories on the consequences of political decentralisation on democratisation *Party Systems in the SADC Region*

Shumbana Karume,2004 Working on the Margins Blair Allan Rutherford,2001 The dramatic changes in Zimbabwe s economic political and social landscapes since the 2000 elections referred to as the Zimbabwe crisis have raised complex critical questions at national regional and international levels This work addresses these points by focusing on the shifting discourses about and relationships between land state and citizenship It argues that these changing definitions and dynamics and their implications can best be understood in terms of a number of overlapping complete and incomplete projects of transformations or as unfinished business **Indicator South Africa** ,2002 *South Africa's Second Democratic Election, 1999 ,2001*
