## **Opera Muliebria:**

Opera Muliebria David Herlihy, 1990 In the early Middle Ages until as late as the thirteenth century women were active and independent participants in many sectors of economic life Even apart from agriculture they were prominent in all phases of cloth making in brewing medicine education administration and in the dispensation of religious counsel In the late Middle Ages clearly so by the fifteenth century women lost that prominence as well as their economic independence Using a great variety of original sources both literary and statistical David Herlihy vividly demonstrates that the subordination of women within a household economy was specifically the product of the late Middle Ages *Opera Muliebria* the medieval Latin term for women s labors is the first comprehensive survey of women s participation in economic activities throughout Europe from ancient times to about 1500 Herlihy illustrates how medieval women lived and worked and how their lives were transformed as the Middle Ages ended He traces the dramatic change in their participation in productive enterprise to the establishment of guild monopolies and reveals that the virtual confinement of women s labors to work within the home was not an ancient arrangement but rather the heritage of the late Middle Ages Covering the entire continent of Europe for over a millennium of its history Herlihy s work contributes to a better understanding not only of medieval women but of the entire social world of the Middle Ages Author note David Herlihy is Mary Critchfield and Barnaby Keeney Professor of History at Brown University and President of the American Historical Association in 1990 He is the author of several books including *Medieval Households*

**Ebb Tide in New England** Elaine Forman Crane, 1998 The status of women in four New England seaports during the seventeenth and eighteenth centuries is thoroughly documented in this illuminating work *Sacred Fictions* Lynda L. Coon, 2010-11-24 Late antique and early medieval hagiographic texts present holy women as simultaneously pious and corrupt hideous and beautiful exemplars of depravity and models of sanctity In *Sacred Fictions* Lynda Coon unpacks these paradoxical representations to reveal the construction and circumscription of women s roles in the early Christian centuries Coon discerns three distinct paradigms for female sanctity in saints lives and patristic and monastic writings Women are recurrently figured as repentant desert hermits wealthy widows or cloistered ascetic nuns and biblical discourse informs the narrative content rhetorical strategies and symbolic meanings of these texts in complex and multivalent ways If hagiographers made their women saints walk on water resurrect the dead or consecrate the Eucharist they also curbed the power of women by teaching that the daughters of Eve must make their bodies impenetrable through militant chastity or spiritual exile and must eradicate self indulgence through ascetic attire or philanthropy The windows the sacred fiction of holy women open on the past are far from transparent driven by both literary invention and moral imperative the stories they tell helped shape Western gender constructs that have survived into modern times *Women in Medieval Europe*

*1200-1500* Jennifer Ward, 2016-04-14 *Women in Medieval Europe* explores the key areas of female experience in the later medieval period from peasant women to Queens It considers the women of the later Middle Ages in the context of their social

relationships during a time of changing opportunities and activities so that by 1500 the world of work was becoming increasingly restricted to women. The chapters are arranged thematically to show the varied roles and lives of women in and out of the home covering topics such as marriage, religion, family and work. For the second edition, a new chapter draws together recent work on Jewish and Muslim women as well as those from other ethnic groups showing the wide ranging experiences of women from different backgrounds. Particular attention is paid to women at work in the towns and specifically urban topics such as trade, crafts, healthcare and prostitution. The latest research on women, gender and masculinity has also been incorporated along with updated further reading recommendations. This fully revised new edition is a comprehensive yet accessible introduction to the topic, perfect for all those studying women in Europe in the later Middle Ages.

**Quantitative Studies of the Renaissance Florentine Economy and Society** Richard T. Lindholm, 2017-01-02

*Quantitative Studies of the Renaissance Florentine Economy and Society* is a collection of nine quantitative studies probing aspects of Renaissance Florentine economy and society. The collection, organized by topic, source material and analysis methods, discusses risk and return, specifically the population's responses to the plague and also the measurement of interest rates. The work analyzes the population's wealth distribution, the impact of taxes and subsidies on art and architecture, the level of neighborhood segregation and the accumulation of wealth. Additionally, this study assesses the competitiveness of Florentine markets and the level of monopoly power, the nature of women's work and the impact of business risk on the organization of industrial production.

*Women's Networks in Medieval France* Kathryn L. Reyerson, 2016-09-01. This book illuminates the connections and interaction among women and between women and men during the medieval period. To do this, Kathryn L. Reyerson focuses specifically on the experiences of Agnes de Bossones, widow of a changer of the mercantile elite of Montpellier. Agnes was a real estate mogul and a patron of philanthropic institutions that permitted lower strata women to survive and thrive in a mature urban economy of the period before 1350. Notably, Montpellier was a large urban center in southern France. Linkages stretched horizontally and vertically in this robust urban environment, mitigating the restrictions of patriarchy and the constraints of gender. Using the story of Agnes de Bossones as a vehicle to larger discussions about gender, this book highlights the undeniable impact that networks had on women's mobility and navigation within a restrictive medieval society.

**The Classical Review**, 1905. This companion to the *Classical Quarterly* contains reviews of new work dealing with the literatures and civilizations of ancient Greece and Rome. Over 300 books are reviewed each year.

Coercion and Wage Labour Anamarija Batista, Viola Franziska Müller, Corinna Peres, 2023-12-07. *Coercion and Wage Labour* presents novel histories of people who experienced physical, social, political or cultural compulsion in the course of paid work. Broad in scope, the chapters examine diverse areas of work including textile production, war industries, civil service and domestic labour in contexts from the Middle Ages to the present day. They demonstrate that wages have consistently shaped working people's experiences and failed to protect workers from coercion. Instead, wages emerge as

versatile tools to bind control and exploit workers Remuneration mirrors the distribution of power in labour relations often separating employers physically and emotionally from their employees and disguising coercion The book makes historical narratives accessible for interdisciplinary audiences Most chapters are preceded by illustrations by artists invited to visually conceptualise the book's key messages and to emphasise the presence of the body and landscape in the realm of work In turn the chapter texts reflect back on the artworks creating an intense intermedial dialogue that offers mutually relational translations and narrations of labour coercion Other contributions written by art scholars discuss how coercion in remunerated labour is constructed and reflected in artistic practice The collection serves as an innovative and creative tool for teaching and raises awareness that narrating history is always contingent on the medium chosen and its inherent constraints and possibilities Praise for Coercion and Wage Labour Coercion and Wage Labour is a pioneering volume It makes a well founded break with the widespread misconception that wage labour is by definition free from coercion The fourteen historical case studies lead to the conclusion that wage labourers too were subject to many forms of coercion and that usually their freedom was and is only relative But something else makes this book special throughout the text there are artistic illustrations that enter into a dialogue with the individual chapters which in turn reflect on the images This creates an inspiring interaction that complements the volume's interdisciplinary nature Marcel van der Linden International Institute of Social History Amsterdam

The Irish Ecclesiastical Record, 1916      **The Secret of John Milton** Heinrich Mutschmann, 1925      *Patristic Studies*, 1927      **The Latinity of the Letters of Saint Ambrose ...** Miriam Annunciata Adams, 1927      *The Latinity of the Letters of Saint Ambrose ...* Sister Mariam Annunciata Adams, 1927      **Patristic Studies** Catholic University of America, 1927      *Medieval Feminist Newsletter*, 1992      *The Legacy of Paradise* Katrien Heene, 1997 Within the framework of the Carolingian religious and moral reform 750-900 various measures were taken which had direct or indirect implications for the experience of sexuality among the laity as well as among the religious Those and other measures also influenced the position of women both in the Church and in the world Taking the Church Fathers as points of reference this book offers a detailed analysis of the view of marriage sexuality motherhood and women as constructed in Latin edifying writings of the time i.e. hagiographical texts moral treatises and sermons By studying the ideas and opinions of the male religious authors of these texts the author aims to examine whether and if so to what extent the attitude of the Carolingian Church was inspired by feelings of misogyny and misogamy In writings addressing the lay public such feelings may have been hidden for pastoral reasons Therefore attention was more particularly paid to the presence of misogyny and misogamy in texts which were chiefly written for religious readers In the last analysis the overall attitude towards women related matters turns out to be different and in many respects more positive than the one found in the writings of the Fathers and of many medieval male religious authors To explain this phenomenon the author puts forward a number of socio-cultural and psychological arguments      *Land of Women* Lisa M. Bitel, 1996 In the process she explains the

often conflicting ideas about women expressed by the writers of medieval Irish texts a small group of literate men vowed to a religion that has always been ambivalent toward the female sex which derived from both Christian and secular Celtic heritages She concludes by examining the violent and powerful images of women common in the medieval literature of Ireland asking why men's texts consistently depicted women negatively when men and women interacted in a wide variety of ways
