Operas In German

James Steakley

Operas In German:

Operas in German Margaret Ross Griffel, 2018 With more than 700 new entries this revised edition addresses itself wholly to operas written specifically to a German text The main body of this book provides entries on the operas themselves In this way each of the works from the earliest selection through the most contemporary is given a more thorough treatment Four appendixes list composers librettists authors whose works inspired or were adapted for the librettos of the operas included in the dictionary and the sources used by the librettists and a chronological listing of the entries in the A Z section

Operas in German: A Dictionary Margaret Ross Griffel, 2018-01-23 With nearly three thousand new entries the revised edition of *Operas in German A Dictionary* is the most current encyclopedic treatment of operas written specifically to a German text from the seventeenth century through 2016 Musicologist Margaret Ross Griffel details the operas composers scores librettos first performances and bibliographic sources Four appendixes then list composers librettists authors whose works inspired or were adapted for the opera librettos and a chronological listing of the entries in the A Z section The bibliography details other dictionaries and encyclopedias performance studies collections of plot summaries general studies on operas sources on locales where opera premieres took place works on the history of operas in German and selective volumes on individual opera composers librettists producers directors and designers Finally two indexes list the main characters in each opera and the names of singers conductors producers composers directors choreographers and arrangers The revised edition of *Operas in German* provides opera historians musicologists performers and opera lovers with an invaluable resource for continued study and enjoyment

Operas in German Margaret R. Griffel, Adrienne Fried Block, 1990-11-30 Griffel has prepared a valuable guide to German opera that can be used profitably by both scholars and amateur devotees of opera The main body of the dictionary provides a discussion of about 380 operas composed to a German text The alphabetically organized entries include information on German premieres as well as first performances in Britain and the US brief plot summaries listings of major roles and occasional historical and analytical remarks *Operas in German* will no doubt serve as one of the major reference sources for any type of research on German opera Highly recommended Choice Although a sizable number of opera dictionaries and encyclopedias are available those devoted to operas in a single language are extremely rare The present dictionary addresses itself wholly to operas written to a German text The main body of this dictionary comprises entries on the operas themselves permitting thorough treatment of some 350 operas This section is augmented by an appendix of some 800 additional opera titles and annotated listings of composers and librettists Almost all of the composers represented here were born in German speaking countries Among the notable exceptions is the Italian born Ferruccio Busoni whose operas were all written to German texts and received premieres in German speaking cities Composers such as Kurt Weill who wrote operas in more than one language are represented by their German works only The operas are listed alphabetically excluding the article which is placed at the end of the title Each entry includes the title with

the English translation and alternate titles in parentheses descriptive terms as needed the number of acts the composer's name the librettist's name the original language and the original source of the text the date place and cast of the first performance similar information for the first United States and United Kingdom performances if applicable a brief plot summary the main characters with vocal ranges citations of especially important or noteworthy numbers additional information such as comments on special musical problems techniques or other significant aspects and other settings of the text including non German ones and or operas involving the same story or characters The entry also has a bibliography a discography and in the few instances where they are available information on video recordings In addition to the aforementioned appendix this dictionary contains an alphabetical listing of composers with their places and years of birth and death and an index of their operas included in this volume The third appendix lists librettists and provides information similar to that in the composer appendix The fourth and fifth appendices provide characters and performers respectively included in the main entries The volume is completed by a bibliography This first dictionary devoted exclusively to operas in German belongs in the reference section of music libraries and will also be of interest to scholars and aficionados of opera

German Opera John Hamilton Warrack, American Council of Learned Societies, 2001 **North German Opera in the Age of Goethe** Thomas Bauman, 1985 This book is the first study of the development of German opera in northern Germany from the first comic operas of Johann Adam Hiller at Leipzig in 1766 to the end of the century Intellectually and historically the period witnessed the flowering of the German stage and German letters German opera was an inseparable part of the new aspirations of the German stage during the Enlightenment Thomas Bauman stresses the vital role of the mixed repertoires of German companies in effecting changes in the genre North German opera began as a basically literary genre It then changed dramatically in response to two major trends first the contact with the serious elements and styles of tragedy and secondly the triumph on German stages of Italian French and Viennese comic operas The book is generously illustrated with music examples There is also a complete catalogue of texts of North German opera those composed for performance and unset published librettos both cross indexed under the librettists names Text and Music in German Operas of the 1920s Rebekka Fritz, 1998 *German Opera Libretti* James Steakley, 1995-02-01 Foreword by Jost Hermand The libretti of the greatest German operas Mozart's *The Magic Flute* Beethoven's *Fidelio* Wagner's *Parsifal* Strauss's *Der Rosenkavalier* and Schoenberg's *Moses and Aron* "*Was deutsch und echt...*" Kasper Bastiaan van Kooten, 2019-03-25 By examining theoretical debates about the nature of nineteenth century German opera and analyzing the genre's development and its international dissemination this book shows German opera's entanglement with national identity formation The thorough study of German opera debates in the first half of the nineteenth century highlights the esthetic and ideological significance of this relatively neglected repertoire and helps to contextualize Richard Wagner's attempts to define German opera and to gain a reputation as the German opera composer par excellence By interpreting Wagner's esthetic endeavors as a

continuation of previous campaigns for the emancipation of German opera this book adds an original and significant perspective to discussions about Wagner's relation to German nationalism

Euryanthe and Carl Maria Von Weber's Dramaturgy of German Opera Michael Charles Tusa, 1991 Weber's opera Euryanthe was written in 1823 and contains much that anticipates Wagner as well as being a masterpiece in its own right. It was intended as the crowning work in the career of this seminal figure in the German operatic tradition of the early nineteenth century. Yet through its defective libretto it has virtually disappeared from the modern repertoire despite containing in Wagner's words Weber's most beautiful richest and most masterful music. In this book Tusa provides the first full length study of Euryanthe ever made and firmly stakes out the claim that it is arguably the key work for understanding Weber's operatic aims. Along with close scrutiny of its dramatic aims and compositional planning Tusa provides insight into its genre and reception history. The result is a book that not only deepens our understanding of a major neglected work but may help to restore it to its true place in the history of romantic opera

Dictionary-catalogue of Operas and Operettas which Have Been Performed on the Public Stage John Towers, 1910

Carl Maria Von Weber and the Search for a German Opera Stephen C. Meyer, 2003 Stephen C Meyer details the intricate relationship between the operas *Der Freischütz* and Euryanthe and the contemporary discourse about the Germany of the imagination and the new nation itself. In doing so he presents excerpts from a wide range of philosophical political and musical writings many of which are little known and otherwise unavailable in English. Individual chapters trace the multidimensional concept of German and foreign opera through the 19th century

Opera Alan Riding, Leslie Dunton-Downer, 2022-08-16 Experience the passion and drama of the world's greatest operas with this sumptuously illustrated visual guide. Immerse yourself in more than 75 years of the world's most celebrated operas and discover the fascinating stories behind them. Explore the lives of opera singers such as Maria Callas, Luciano Pavarotti and Jonas Kaufmann. Meet composers such as Mozart, Wagner and Britten and the librettists with whom they collaborated to create the magical blends of words and music that make up opera. From its origins in the 17th century courts of Italy to live screenings in public spaces today. *Opera: The Definitive Illustrated History* follows the history of opera from Monteverdi's *L'Orfeo* in 1607 to *Così fan tutte*, *La Bohème* and modern operas such as *Brokeback Mountain*. It explains musical terminology, traces historical developments and sets everything in cultural context. Filled with photographs of all the key figures and performances, this ebook revels in the sets and costumes that make up the grand spectacle of opera. It also explores the great opera houses of the world such as La Scala in Milan, the Met in New York and the Sydney Opera House. *Opera: The Definitive Illustrated History* is the essential book for anyone who wants to understand and enjoy the constantly evolving world of opera

Der Freischütz Carl Maria von Weber, 1923

The Authentic Librettos of the French and German Operas ... [Anonymus AC07508447], 1939

The Authentic Librettos of the French and German Operas, 1980-01-01

The Meyerbeer Libretti Robert Ignatius Letellier, Richard Arsenty, 2013-02-21 Giacomo Meyerbeer one of the most important

and influential opera composers of the nineteenth century enjoyed a fame during his lifetime hardly rivalled by any of his contemporaries This ten volume set provides in one collection all the operatic texts set by Meyerbeer in his career The texts offer the most complete versions available Each libretto is translated into modern English by Richard Arsenty and each work is introduced by Robert Letellier In this comprehensive edition of Meyerbeer's libretti the original text and its translation are placed on facing pages for ease of use The eleventh volume presents the fourth of Meyerbeer's grands opéras and his final work By 1860 long imposed labor had started to tell upon the composer's health he knew that he must concentrate on the navigator project which he had started twenty years earlier if he intended to finish it Meyerbeer died on 2 May 1864 the day after the completion of the copying of the full score of this his last opera Vasco da Gama Minna Meyerbeer and César Victor Perrin the director of the Opéra entrusted the editing of a performing edition to the famous Belgian musicologist François Joseph Fétis while the libretto was revised by Méliès The original title of *L'Africaine* was restored out of deference to public expectation Much of the music and action was suppressed in spite of the strain this inflicted on the internal logic of the story While *L'Africaine* is not lacking in the grandeur of statement and stirring climaxes for which the composer was so famous there is a new intimacy a new intensity of melancholic lyricism Like its famous predecessors it is basically an historical work derived from the period of sixteenth century Renaissance The account of Vasco da Gama's voyage of discovery around the Cape of Good Hope and conquest of Calicut 1497-98 is subjected to a fictional treatment that raises many interesting issues The framework is historical but most of the characters and course of action are not in fact the end of the opera in the suicide of the heroine suddenly leaves the terra firma of reality and transports us into the mystical realms of the spirit It is this mixture of modes that is central to the dramaturgy of *L'Africaine* a confusion of history and fairytale ancient certainties and challenging discoveries in the creation of a new mythology There is also originality in formal developments with the great tenor scene in act 4 providing a new malleability in handling the constraints of shape and genre recitative arioso and cabaletta have a fluent integration in trying to explore the text more pointedly *L'Africaine* was produced on 28 April 1865 a great posthumous tribute to its famous creators The Ship Scene the exotic Indian act and the Scene of the Manchineel Tree exerted a fascination on audiences and elicited new praise The work full of melodic beauty and rapturous lyricism began a triumphal progress through the world beginning with the big stages of London and Berlin
