## **Operation Judgement:**

*The Battle of Matapan 1941* Mark Simmons,2011-10-21 In March 1941 the Royal Navy scored one of the greatest one sided victories against the Italian Fleet the Regia Marina at Matapan It brought to an end six months of remarkable success for the Royal Navy in the Mediterranean When France fell and Italy declared war on Britain Admiral Dudley Pound had wanted to evacuate the Mediterranean altogether and concentrate on home defence Churchill overruled him regarding such a move as the death knell of the British Empire His decision made the Mediterranean theatre the focus of British land operations for four years reliant on the Navy In Admiral Andrew Cunningham Churchill had a fleet commander in the Mediterranean who would miss no chance of hounding the enemy Affectionately known as A B C by his men Cunningham was salty in his language intolerant of fools and a master of tactics In The Battle of Matapan 1941 The Trafalgar of the Mediterranean Mark Simmons explores the remarkable victories of Taranto and Matapan as seen through the eyes of the men who manned the ships and flew the aircraft of the Mediterranean Fleet

*The Littorio Class* Ermindo Bagnasco,2011-07-18 For its final battleship design Italy ignored all treaty restrictions on tonnage and produced one of Europe's largest and most powerful capital ships comparable with Germany's Bismarck class similarly built in defiance of international agreements The three ships of the Littorio class were typical of Italian design being fast and elegant but also boasting a revolutionary protective scheme which was tested to the limits as all three were to be heavily damaged in the hard fought naval war in the Mediterranean Roma had the unfortunate distinction of being the first capital ship sunk by guided missile These important ships have never been covered in depth in English language publications but the need is now satisfied in this comprehensive and convincing study by two of Italy's leading naval historians The book combines a detailed analysis of the design with an operational history evaluating how the ships stood up to combat It is illustrated with an amazing collection of photographs many fine line plans and coloured artwork of camouflage schemes adding up to as complete a monograph on a single class ever published Among warship enthusiasts battleships enjoy a unique status As the great success of Seaforth's recent book on French battleships proves that interest transcends national boundaries and this superbly executed study is certain to become another classic in the field

**Fuzzy Logic and Intelligent Systems** Hua Harry Li, Madan M. Gupta, 2007-07-07

One of the attractions of fuzzy logic is its utility in solving many real engineering problems As many have realised the major obstacles in building a real intelligent machine involve dealing with random disturbances processing large amounts of imprecise data interacting with a dynamically changing environment and coping with uncertainty Neural fuzzy techniques help one to solve many of these problems Fuzzy Logic and Intelligent Systems reflects the most recent developments in neural networks and fuzzy logic and their application in intelligent systems In addition the balance between theoretical work and applications makes the book suitable for both researchers and engineers as well as for graduate students

**The Fleet Air Arm** Keith Abnett, 2024-11-08 This book uncovers many hidden facts and untold stories of the Fleet Air Arm FAA shedding light on its remarkable history much of which has not been widely published It offers a concise yet vivid account of how the Royal Navy's Air Service RNAS evolved over the years shaped by over a century of political manoeuvring and its long standing rivalry with the Royal Air Force Even today the FAA continues to operate in the shadow of the RAF as seen in the ongoing developments surrounding the Queen Elizabeth class aircraft carriers and the F 35B aircraft they now carry frequent subjects in the media Few know that the last serviceman to die in the Second World War was an FAA pilot shot down over Japan at the very end of the Pacific conflict While FAA victories such as Taranto and the Falklands are well known it may surprise readers to learn that the FAA briefly flew Lancasters in 1946 And in the Gulf War FAA Westland Lynx helicopters made history by virtually wiping out Iraq's navy using Sea Skua missiles the first time seaborne helicopters achieved such a feat This book also features the most comprehensive post 1945 timeline of the FAA a reflection of the decline of Britain's maritime power over recent decades Enriching the narrative are personal anecdotes from FAA personnel highlighting their bravery dedication and sacrifice in the line of duty

**Raiders** Ross Kemp, 2012-10-25 To the people of Great Britain World War II was the deadliest and bloodiest war in history Never before or since have so many people made such a personal sacrifice in the line of duty

Raiders tells the extraordinary true stories of six of the most daring special operations ever undertaken in warfare and the heroism of the people behind them Operation Chariot was the most ambitious amphibious raid ever mounted by the British Forces Attacking the heavily fortified dry dock at St Nazaire in German occupied France an elite group of commandos battered their way through a maelstrom of bullets and incendiaries Their boat is punctured by over a hundred shell holes the dead and wounded lie all around them on the decks but still their guns are blazing and still they press on Courage is the first of human qualities because it is the quality that guarantees all others Winston Churchill
