ethnicity and geographical references in ancient sources Tomasz Mojsik traces the development of and changes in the mythological image of the hero in Antiquity and sheds new light on contemporary constructions of cultural identity by locating the various versions of the mythical story within their socio political contexts Examination of the early literary sources prompts a reconsideration of the tradition which locates the tomb of the hero in Macedonian Pieria and the volume argues for the emergence of this tradition as a reaction to the allegation of the barbarity and civilizational backwardness of the Macedonians throughout the wider Greek world These assertions have important implications for Archelaus Hellenizing policy and his commonly acknowledged sponsorship of the arts which included his incorporating of the Muses into the cult of Zeus at the Olympia in Dium *The Journal of Hellenic Studies* ,1997 Vols 1 8 1880 87 plates published separately and numbered I LXXXIII **1995** Massimo Mastrogregori,2014-02-21 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors **Sappho in the Making** Dimitrios Yatromanolakis,2007 This book offers the first interdisciplinary and in depth study of the cultural practices and ideological paradigms that conditioned the politics of the reading of Sappho s songs in the early and most pivotal stages of her reception In this wide ranging synthesis Dimitrios Yatromanolakis investigates visual representations and ancient texts in their synchronic and diachronic multilayeredness to trace the discursive nexuses that defined the making of Sappho in the late archaic classical and early Hellenistic periods Offering a systematic analysis of the contextual cues provided by vase paintings and focusing on the sociocultural institution of the symposion this book explores the intricate modes of the assimilation of Sappho s poetry into diverse social aesthetic and performative contexts Drawing on a number of disciplines including archaeology papyrology and anthropology Sappho in the Making articulates a new methodological Problematik on the reception of archaic Greek socioaesthetic cultures Proceedings of the 24th International Congress of Papyrology, Helsinki, 1-7 August, 2004 Jaakko Fro sen,Tiina Purola,Erja Salmenkivi,2007 *Mainly Apollonius* Steven B.
