Department of Printed Books, 1969 *The Publishers' Trade List Annual*, 1992 **The Mystic Way** Evelyn Underhill, 1913 *The Mystic Way* Evelyn Underhill, 2015-07-11 Excerpt from *The Mystic Way A Psychological Study in Christian Origins* It is the object of this book to trace out that type of life that peculiar quality of consciousness which is called mystical from its earliest appearance within Christianity to estimate so far as is possible the true character and origin of the Christian mystic and define the qualities which differentiate him from those other mystics who have been evolved along other lines of spiritual development Oriental Neoplatonic or Mahomedan It is now acknowledged by many psychologists amongst whom Leuba and Delacroix are of special importance since their conclusions are entirely free from theological bias that the Christian mystic does possess such differentiating characters and represents so far as the psychical

nature of man is concerned a genuine species apart Leuba indeed does not hesitate to call him one of the most amazing and profound variations of which the human race has yet been witness This being so his origin and real significance have surely a special importance for those interested in the spiritual evolution of humanity We are still too often told that Christian mysticism is no integral part of Christianity sometimes even that it represents an opposition to the primitive Christian ideal Sometimes we are asked to believe that it originated from Neoplatonic influence that Pagan blood runs in its veins and that its genealogy goes back to Plotinus Far from this being the case all the doctrines and all the experiences characteristic of genuine Christian mysticism can be found in the New Testament and I believe that its emergence as a definite type of spiritual life coincides with the emergence of Christianity itself in the person of its Founder About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

American Philosophical Society, **Paperbacks in Print** ,1980 The Mystic Way Sara Wiseman, 2020-04-23 Are you a soul traveler A mystic shaman or seeker Do you long to journey in the spiritual realms Do you seek to explore yourself as a soul In your own life you've journeyed millions of times but you may not be sure how you do it You've soul traveled all over the Universe but you may not be sure how you get there and how you get back By journeying I mean traveling to the etheric realms in consciousness as a soul experience The places you visit might be called the etheric realms the imaginal realms the spirit world the realms of guides and angels the Akashic Records the shamanic worlds or something else We journey to many places and dimensions we don't have names for yet And yet what's interesting is this when we journey when we soul travel we often visit the same places We visit the same portals we use the same systems to travel we understand soul language the same way And just as with a physical trip on the earth plane our soul travel is consistent it is a repeatable process that we can learn to do at will If you long to journey in the spiritual realms I am so pleased to offer this book as a guide In this book you'll learn what to expect as you visit each Divine portal what or who you might encounter how to proceed in different situations and most importantly how to receive the Divine guidance and healing that is always waiting for us whenever we journey in the unlimited consciousness of the Universe Let us journey together The Universe awaits **Seeking the Sacred with Psychoactive Substances** J. Harold Ellens, 2014-10-28 Can drugs be used intelligently and responsibly to expand human consciousness and heighten spirituality This two volume work presents objective scientific information and personal stories aiming to answer the question The first of its kind this intriguing two volume set objectively reports on and assesses

this modern psycho social movement in world culture the constructive medical use of entheogens and related mind altering substances Covering the use of substances such as ayahuasca cannabis LSD peyote and psilocybin the work seeks to illuminate the topic in a scholarly and scientific fashion so as to lift the typical division between those who are supporters of research and exploration of entheogens and those who are strongly opposed to any such experimentation altogether The volumes address the history and use of mind altering drugs in medical research and religious practice in the endeavor to expand and heighten spirituality and the sense of the divine providing unbiased coverage of the relevant arguments and controversies regarding the subject matter Chapters include examinations of how psychoactive agents are used to achieve altered states in Judaism Christianity Islam and Buddhism as well as in the rituals of shamanism and other less widely known faiths This highly readable work will appeal to everyone from high school students to seasoned professors in both the secular world and in devoted church groups and religious colleges

The Mystic Way in Postmodernity Sue Yore,2009 This book challenges experiential esoteric and colloquial understandings of mysticism by bringing a fresh relevance to the term through an interdisciplinary dialogue between literature mysticism and theology in the context of postmodernity In order to achieve this the author takes selected writings of Iris Murdoch Denise Levertov and Annie Dillard and incorporates them into various stages of a redesigned mystic way The fourteenth century mystic Julian of Norwich is invoked throughout as a role model whom these three writers seek to emulate as popular writers contemplatives and theologians As theologians who are concerned with the pressing issues of our age Grace Jantzen Dorothee Soelle and Sallie McFague are drawn on as conversation partners to complete the three way discussion The author maintains that understanding the writing and reading of creative texts in the context of practical mysticism facilitates an integrated approach to the use of literature for theological expression
