**Islam** Amin Banani, Richard Hovannisian, Georges Sabagh, 1994-08-25 Mawlana Jalal al Din Rumi was one of the greatest poets and mystics of the Islamic world He was born in Balkh Korasan in AD 1207 and died in Konya Turkey in AD 1273 This book is an examination of his spiritual and literary heritage As Annemarie Schimmel the recipient of the Eleventh Giorgio Della Vida Award in Islamic Studies has written no other mystic and poet from the Islamic world is as well known in the West as Rumi and she more than any Western scholar is his most celebrated and eloquent interpreter The scholars who Professor Schimmel has invited to share in her tribute have all added new dimensions to an understanding of Rumi and to his impact on the Islamic world **Sufism** Carl W. Ernst, 2017-04-04 The classic introduction to the philosophies practices and history of Sufism the mystical tradition of Islam The Sufis are as diverse as the countries in which they've flourished from Morocco to India to China and as varied as their distinctive forms of art music poetry and dance They are said to represent the mystical heart of Islam yet the term Sufism is notoriously difficult to define as it means different things to different people both within and outside the tradition With that fact in mind Carl Ernst explores the broadest range of Sufi philosophies and practices to provide one of the most complete and comprehensive introductions to Sufism available in English He traces the history of the movement from the earliest days of Islam to the present day along the way examining its relationship to the larger world of Islam and its encounters with both fundamentalism and secularism in the modern world **The Mystics of Islam (Classic Reprint)** Reynold A. **Sufism** Reynold A. Nicholson,2009-06 Experts Sufism the religious philosophy of Islam is described in the oldest extant definition as the apprehension of divine realities and Mohammedan mystics are fond of calling themselves Ahl al Haqq the followers of the Real In attempting to set forth their central doctrines from this point of view I shall draw to some extent on materials which I have collected during the last twenty years for a general history of Islamic mysticism a subject so vast and many sided that several large volumes would be required to do it anything like justice Here I can only sketch in broad outline certain principles methods and characteristic features of the inner life as it has been lived by Moslems of every class and condition from the eighth century of our era to the present day The Sufi who sets out to seek God calls himself a traveler salik he advances by slow stages maqamat along a path tariqat to the goal of union with Reality *Sufism* A.J.

*Sufis and Saints' Bodies* Scott Kugle,2011-09-01 Islam is often described as abstract ascetic and uniquely disengaged from the human body Scott Kugle refutes this assertion in the first full study of Islamic mysticism as it relates to the human body Examining Sufi conceptions of the body in religious writings from the late fifteenth through the nineteenth century Kugle demonstrates that literature from this era often treated saints physical bodies as sites of sacred power *Sufis and Saints Bodies* focuses on six important saints from Sufi communities in North Africa and South Asia Kugle singles out a specific part of the body to which each saint is frequently associated in religious literature The saints bodies Kugle argues are treated as symbolic resources for generating religious meaning communal solidarity and the experience of sacred power In each

chapter Kugle also features a particular theoretical problem drawing methodologically from religious studies anthropology studies of gender and sexuality theology feminism and philosophy Bringing a new perspective to Islamic studies Kugle shows how an important Islamic tradition integrated myriad understandings of the body in its nurturing role in the material social and spiritual realms

Zarrabi-Zadeh, 2016-01-29 Practical Mysticism in Islam and Christianity offers a comparative study of the works of the Sufi poet Jalal al Din Rumi 1207 1273 and the practical teachings of the German Dominican Meister Eckhart c1260 1327 8 Rumi has remained an influential figure in Islamic mystical discourse since the thirteenth century while also extending his impact to the Western spiritual arena However his ideas have frequently been interpreted within the framework of other mystical philosophical or religious systems Through its novel approach this book aims to reformulate Rumi's practical mysticism by employing four methodological principles a mysticism is a coherent structure with mutual interconnection between its parts b the imposition of alien structures to interpret any particular mysticism damages its inward coherency c practical mysticism consists of two main parts namely practices and stages and d the proper use of comparative methodology enables a deeper understanding of each juxtaposed system Eckhart's speculative mysticism which differs from and enjoys similarities with the love based mysticism of Rumi provides a mirror that highlights the special features of Rumi's practical mysticism Such comparison also allows a deeper comprehension of Eckhart's practical thought Offering a critical examination of practical mysticism this book is a valuable resource for students and scholars of Islamic studies comparative mysticism and the intellectual history of Islam
