Randall, Matte Robinson, 2023-11-30 Many of us have particular things in our lives photographs paintings old letters books furniture jewellery or clothing that hold special meaning for us Often they correspond to pivotal memories and can be central to our sense of self and our life narratives all the more so as we age *Things That Matter* sheds important light on the intricate intertwining of mementos with stories and vice versa in most people's lives The book explores the significance of cherished objects within the life stories of nine participants in a qualitative study of the links between reminiscence and resilience in later life The researchers who conducted the study represent a variety of fields including gerontology social work ministry nursing literature and education The book details how life stories can be fraught with a wide range of insights and questions from the memories that get stirred up as people embark on the process of life review prompted by the challenges and changes of aging Shedding light on the complex emotional psychological and spiritual findings of the study *Things That Matter* ultimately reveals the intricacy of personal narrative and the incredible ways in which things and stories are interwoven in our lives over time *Twenty-five Books That Shaped America* Thomas C. Foster, 2011-05-24 From the author of the New York Times bestselling *How to Read Literature Like a Professor* comes a highly entertaining and informative book on the twenty five works of literature that have most shaped the American character Thomas C Foster applies his much loved combination of wit know how and analysis to explain how each work has shaped our very existence as readers students teachers and Americans He illuminates how books such as *The Last of the Mohicans* *Moby Dick* *My Antonia* *The Great Gatsby* *The Maltese Falcon* *Their Eyes Were Watching God* *On the Road* *The Crying of Lot 49* and others captured an American moment how they influenced our perception of nationhood and citizenship and what about them endures in the American character *Twenty five Books That Shaped America* is a fun and enriching guide to America through its literature **The Quantum Revolution** Arthur Kroker, David Cook, 2023-11-01 We are currently riders of the information storm AI fascinates us images mesmerize us data defines us algorithms remember us news bombards us devices connect us isolation saddens us Deeply embedded in digital technology we are the very first inhabitants of life in the quantum zone *The Quantum Revolution* is about life today its entanglements creativity politics and artistic vision Arthur Kroker and David Cook explore a new way of thinking drawn directly from the quantum imaginary itself They explain the quantum revolution as everyday life where technology moves fast and where under cover of the digital devices that connect us the most sophisticated concepts of technology and science originating in mathematics astrophysics and biogenetics have swiftly flooded human consciousness shaped social behavior and crafted individual identity The book discusses the concept of the quantum zone as a new way of understanding digital culture and presents stories about art technology and society as well as a series of reflections on art as a gateway to understanding the

quantum imaginary Richly illustrated with sixty images of critically engaged photos and artwork The Quantum Revolution privileges a new way of understanding and seeing politics society and culture through the lens of the duality that is the essence of the quantum imaginary *Even the Rhinos Were Nymphos* Bruce Jay Friedman, 2018-06-29 A few years ago Christopher Buckley wrote of Bruce Jay Friedman in the New York Times Book Review that he has been likened to everyone from J D Salinger to Woody Allen but that he is Bruce Jay Friedman sui generis and no mean thing No further comparisons are necessary We are happy to report that he remains the same Bruce Jay Friedman in his unique unblinking and slightly tilted essays collected here for the first time in *Even the Rhinos Were Nymphos* A butler school in Houston a livestock auction in Little Rock a home for frozen guys in California JFK s humidor in Manhattan all are jumping off points for Friedman s baleful and sharply satirical scrutiny of American life and behavior in the second half of the twentieth century Travel with Friedman from Harlem to Hollywood from Port au Prince to Etta s Eat Shop in Chicago In these pieces which were published in literary and mass circulation magazines from the 1960s to the 1990s you ll meet such luminaries as Castro and Clinton Natalie Wood and Clint Eastwood and even Friedman s friends Irwin Shaw Nelson Algren and Mario Puzo Friedman is a master of the essay whether the subject is crime reporting Lessons of the Street Hollywood shenanigans My Life among the Stars or his outrageous adventures as the editor of pulp magazines the classic *Even the Rhinos Were Nymphos* We could sing his praises as a journalist humorist and social critic But as Buckley tells us being Bruce Jay Friedman is enough Bruce Jay Friedman is the author of seven novels including *The Dick Stern* and *A Mother s Kisses* four collections of short stories four full length plays including *Scuba Duba* and *Steambath* and the screenplays for the movies *Splash* and *Stir Crazy* *Aesthetics, Arts, and Politics in a Global World* Daniel Herwitz, 2017-01-26 A different set of purposes define culture today than those that preoccupied the world in the immediate decades of decolonization Focusing on art and music in diverse parts of the world Daniel Herwitz explores a world that has largely shifted from the earlier days of nationalism decolonization and cultural exclusion to one of global markets and networks Using examples from India and Mexico to South Africa Australia and China Herwitz argues that the cultural politics and art being produced in these places are now post colonial Where the post colonial downplayed formerly Eurocentric forms and celebrated art with national consciousness the rules for 21st century cultural authenticity are quickly disappearing Young people think of themselves in relation to global culture rather than nation building the project of producing a new and modern art for the incipient and rising post colonial nation is out of date By examining the shift in which art accesses the past and the rise of trends such as hitching consumer culture to celebrity forms and branding Herwitz s original and engaging exploration of contemporary art captures the ways in which art has given way to a new form of production altering everything from the role of tradition and heritage in contemporary art to the terms of its vision and circulation **Making Sense of History** Geoffrey Partington, 2013-07 Much more is known about the past that is interesting valuable and and relevant to our problems than any one of us can ever know

Making Sense of History proposes we focus on Five Zones of Priority Livelihoods Protection from violence Freedom Relationships and Ideas Partington examines some perennial problems such as Progress or Regression Bias Prejudice and Moral Judgment Depth versus Breadth and the ongoing fabrication of myths and accusations of genocide and cannibalism Partington warns against looking to history for the certainties that physics or mathematics provide We have free will and make decisions rather than react uniformly to external forces Historical understanding is more like proverbial wisdom writ large than the theorems of Pythagoras or Einstein A more serious problem is the ideological capture of much history teaching in countries like Britain the United States Canada Australia and New Zealand Partington does not advocate vainglorious national pride but defends the achievement of those countries in making a better though imperfect balance between freedom and security than has been made at almost every other time or place

Mythical and Fabulous Creatures Malcolm South, 1987-03-12 This serious scholarly treatment of 20 imaginary beings from dragon and phoenix to giants and fairies discusses the origin of each as an idea its symbolism and lore and its appearances in art literature or film Extensive bibliographies follow the generally ambitious and erudite essays while a final catch all article and selective bibliography cover still more ground at a gallop There are a number of thoughtful and well written interpretive investigations into the nature and history of some persistent types Entries on the Basilisk Harpies Medusa and the Sphinx are particularly fine here one feels that the mystery and power of these imaginative creatures is not vitiated by scholarly taxidermy Library Journal This book provides thorough documentation of the best known creatures of fantasy with a breadth of coverage that is both impressive and delightful Recommended for all libraries supporting research in mythology fantasy folklore or popular culture Choice
