Writing Personal Statements and Scholarship Application Essays Joe Schall, 2006 **Developmental Aspects of Text Production in Writing and Speech** Victoria Johansson, 2009 Machine Scoring of Student Essays Patricia Freitag Ericsson, Richard

Haswell, 2006-03-15 The current trend toward machine scoring of student work Ericsson and Haswell argue has created an emerging issue with implications for higher education across the disciplines but with particular importance for those in English departments and in administration The academic community has been silent on the issue some would say excluded from it while the commercial entities who develop essay scoring software have been very active Machine Scoring of Student Essays is the first volume to seriously consider the educational mechanisms and consequences of this trend and it offers important discussions from some of the leading scholars in writing assessment Reading and evaluating student writing is a time consuming process yet it is a vital part of both student placement and coursework at post secondary institutions In recent years commercial computer evaluation programs have been developed to score student essays in both of these contexts Two year colleges have been especially drawn to these programs but four year institutions are moving to them as well because of the cost savings they promise Unfortunately to a large extent the programs have been written and institutions are installing them without attention to their instructional validity or adequacy Since the education software companies are moving so rapidly into what they perceive as a promising new market a wider discussion of machine scoring is

vital if scholars hope to influence development and or implementation of the programs being created What is needed then is a critical resource to help teachers and administrators evaluate programs they might be considering and to more fully envision the instructional consequences of adopting them And this is the resource that Ericsson and Haswell are providing here **Girls, Social Class, and Literacy** Stephanie Jones,2006 Presents a comprehensive study guide to help teachers deal with impact of poverty on elementary education and draws upon the findings of her five year study of eight girls from poorer backgrounds **Word Expressions** Josephine Alice Brinkman,2005 **Virginia Woolf Miscellany** ,2004
