The Screen in Surrealist Art and Thought Haim Finkelstein,2017-07-05 An interrogation of the notion of space in Surrealist theory and philosophy this study analyzes the manifestations of space in the paintings and writings done in the framework of the Surrealist Movement Haim Finkelstein introduces the screen as an important spatial paradigm that clarifies and extends the understanding of Surrealism as it unfolds in the 1920s exploring the screen and layered depth as fundamental structuring principles associated with the representation of the mental space and of the internal processes that eventually came to be linked with the Surrealist concept of psychic automatism Extending the discussion of the concepts at stake for Surrealist visual art into the context of film literature and criticism this study sheds new light on the way film thinking permeates Surrealist thought and aesthetics In early chapters Finkelstein looks at the concept of the screen as emblematic of a strand of spatial apprehension that informs the work of young writers in the 1920s such as Robert Desnos and Louis Aragon He goes on to explore the way the spatial character of the serial films of Louis Feuillade intimated to the Surrealists a related mode of vision associated with perception of the mystery and the Marvelous lurking behind the surfaces of quotidian reality The dialectics informing Surrealist thought with regard to the surfaces of the real with walls doors and windows as controlling images are shown to be at the basis of Andr reton s notion of the picture as a window Contrary to the traditional sense of this metaphor Breton s window is informed by the screen paradigm with its surface serving as a locus of a dialectics of transparency and opacity permeability and reflectivity The main aesthetic and conceptual issues that come up in the consideration of Breton s window metaphor lay the groundwork for an analysis of the work of Giorgio de Chirico Ren agritte Max Ernst Andr assion and Joan Mir he concluding chapter consi

A. Ashmun Kelly, Frederick Maire, Arthur Seymour Jennings,1893 *Crime Scenes* Anne Mullen, Emer O'Beirne,2000 The essays in this collection are based on papers given at a conference on detective fiction in European culture held at the University of Exeter in September 1997 The range of topics covered is designed to show not only the presence and variety of narratives of detection across different European countries and their different media although there is a predictable emphasis on the novel It also illustrates the fertility of the genre its openness to a spectrum of readings with different emphases formal as well as thematic Approaches to detective fiction have

often tended to confine them selves to symptomatic interpretation where details of the fictional world represented are used to diagnose a specific set of social preoccupations and priorities operative at the time of writing Such approaches can yield valuable insights Nonetheless there is a risk of limiting the value of the genre as a whole solely to its role as a mirror held up to society In this perspective issues of structure and style are sidelined or if addressed are praised to the extent that they approach invisibility concision spareness realism are the qualities singled out for praise The genre also gives much scope for formal innovation and indeed has often attracted already established mainstream writers and filmmakers for just this reason The eclectic diversity of the detective narratives considered in this volume reveal the malleability of the traditional constraints of the genre The essays bear rich testimony to the value of considering the interplay of thematic and structural issues even in the most apparently unselfconscious and popular or populist forms of narrative The patterns of reassurance the triumph of intellect and the ordered rational world of old are now challenged by the need to foreground the problems ambiguities and uncertainties of the self and of society The plurality of meanings and the antithetical imperatives explored in these detective narratives confirm that the most recent forms of the genre are not mere palimpsests of their golden age precursors The subversion of traditional expectations and the implementation of diverse stylistic devices take the genre beyond mere homage and pastiche The role of the reader spectator and critic in conferring meaning is a crucial one
