## **Mystic Mind:**

**The Mystic Mind** Jerome Kroll, Bernard S. Bachrach, 2005 Drawing on a database of over 1400 medieval holy persons and in depth studies of individual saints this fascinating collaboration between a medieval historian and a professor of psychiatry applies modern biological and psychological research to the lives of medieval mystics and ascetics **The Mystic Mind** Crystal Love, 2004 Drawing on previously unpublished as well as newly discovered scientific data this crucial work provides proof that the supernatural exists in everyday life Arguing that mainstream scientists have imposed parameters on the human mind this revolutionary book presents a case for why unexplained mystical and supernatural events need to be seriously examined Providing parallels between modern science religion and a variety of healing modalities it provides evidence for the truths of telepathy out of body and near death experiences reincarnation hypnosis astrology and hands on healing Appealing to both believers and the skeptics the evidence forces a rethinking of supernatural phenomena and offers research the mainstream scientific community cannot deny *A Modern Mystic's Guide to Creating a Better Future.
