an Account of the Religious Doctrines Monastic Organisation and Ecstatic Powers of the Dervish Orders My aim in this volume has been to give a thoroughly impartial account of the Dervishes of Turkey so far as my knowledge of their principles and practices will allow neither unduly concealing their lower nor unduly exalting their higher aspects And I would fain hope that this brief study of the Mystics of Islam may be found to have not only a speculative and religious but also a practical and political interest In controversies with respect to Islam and Civilisation no account is usually taken of the Mystical side of this Creed as a native element of antagonism to the most essential doctrines of Islam Widespread as is this unorthodox mysticism it has been and still is compelled to keep itself to a certain extent hidden Events may however possibly sooner or later bring it to the surface and endow it with practical significance For as in the Christian West there has ever been a continuous protest both on the intellectual side by philosophers and on the religious side by mystics against the more distinctively Semitic doctrines of Christianity so it has also been in the Moslem East in the Schools of the Dervishes both among the Persians and the Ottomans About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**Arcana V** John Zorn, 2010  
Mysticism magic and alchemy all come into play in the creative process For centuries musicians have tapped into things spiritual embracing ritual spell incantation and prayer deeply into their life and work Although the connection of music to mysticism has been consistent well documented and productive it is still shrouded in mystery and largely misunderstood For this special edition Aracana focuses on the nexus of mysticism and spirituality in the magical act of making music Far from an

historical overview or cold musicologist's study these essays illuminate a fascinating and elusive subject via the eloquent voices of today's most distinguished modern practitioners and greatest adult thinkers providing insights into the esoteric traditions and mysteries involved in the composition and performance of the most mystical of all arts Book cover

Excerpt from *Mysticism and Magic in Turkey an Account of the Religious Doctrines Monastic Organisation and Ecstatic Powers of the Dervish Orders* Protest by the Monks Of Islam has not been without practical results in Persia so may it likewise be expected to have corresponding results in Turkey. From the Sufism of the Dervish Orders sprang the movement of Babism the initiation Of which was contemporary with the European revolutionary uprising Of 48. This movement which was suppressed with the most barbarous atrocities gave greater promise than any other event connected.
