Document Setup

Before you begin your project, getting your document set up correctly is very important. This document was created to help.

Build your document to the final trim size. **Live Area**, indicated by a gray rectangle in the example below, must be a minimum of an 11" (102% in) inside the trim. **Bleed**, images and backgrounds intended to extend to the edge of the page, must be extended an 11" (125 in) beyond trim to the bleed guide.

TIP If you select **Facing Pages** (two-page spreads), please **Export PDFs as Pages**, not Spreads. Of course there are some exceptions. Please contact us with any questions.
