Atravesados Trevor Boffone,Cristina Herrera,2025-02-17 Contributions by Frederick Luis Aldama Trevor Boffone T Jackie Cuevas Cristina Herrera Alexander Lalama Angel Daniel Matos Regina Marie Mills Joseph Isaac Miranda Jesus Monta o Domino Renee P rez Regan Postma Monta o Cristina Rhodes and Sonia Alejandra Rodr guez Atravesados Essays on Queer Latinx Young Adult Literature shows

how Latinx queer YA writers discard the same old story and offer critical representations of queerness that broaden YA writing and insist on the presence of queer teens of color Atravesados draws on foundational Chicana queer theorist Gloria Anzaldúa's notion of atravesados to speak to the spectrum of queer youth Latinidades as they materialize in YA literature. Los atravesados, according to Anzaldúa, are the squint eyed, the perverse, the queer, the troublesome, the mongrel, the mulato, the half breed, the half dead, in short, those who cross over, pass over, or through the confines of the normal. Los atravesados reside in the borderlands space of *ni de aquí ni de allí*, neither here nor there, present yet liminal, their queerness the very source of both frustration and empowerment, a paradox of joy and tragedy. Although written in 1987, Anzaldúa's theory speaks to the realities of queer Latinx teens that fill the pages of YA literature well into the twenty-first century. Characters such as Juliet from Gabby Rivera's *Juliet Takes a Breath*, Aaron from Adam Silvera's *More Happy Than Not*, or the titular Chulito from Charles Rice Gonzales's novel encompass the highs, lows, and everything in betweenness of queer Latinx teen lived experiences. This collection tells their stories. Contributors speak to the spectrum of queer youth Latinidades as they materialize in YA literature, paying close attention to representation and the ways youth are portrayed, whether accurate or stereotypical. Close attention is paid to books that succeed in broadening the field of YA, highlighting authors that draw from their own lived experiences and situate strong, fully developed characters. Taken together, these essays move beyond the page, explaining to readers why representation and authenticity matter in YA literature as well as the far-reaching effects they can have for real-world queer Latinx teens.

Reading Russian Literature, 1980-2024

Otto Boele, Dorine Schellens, 2024-10-09. This edited collection focuses on the nexus between literary consumption, memory, and collective identity formation in Russia from the 1980s until today. It challenges perceived notions about the reduced social significance and identity-building potential of contemporary Russian literature. Drawing on a diverse set of primary source materials ranging from memoirs, diaries, and essays to fan art and BookToks, the collection seeks to do justice to the diversity of an enormous reading public that is often routinely referred to as the Russian reader. The case studies explore the reading habits and self-understanding of very different audiences that are dispersed along regional, gender, generational, and technological divides. In doing so, this collection examines both the continuities and shifts in the multifaceted relationship between literary consumption, memory, and identity during the profound and ongoing transformations in Russian society and its literary landscape.

The Persephone Myth in Young Adult Fiction Cristina Salcedo González,2024-12-12 Investigating the widespread but understudied presence of the Persephone myth within 21st century young adult literature Cristina Salcedo González analyses six young adult novels which incorporate a reworking of this ancient Greek myth Through the identification of mythic themes mythemes and patterns within these novels González shows that these works evoke the female life cycle and develop current perceptions of the female maturational experience As a result Salcedo González makes an important contribution in establishing the cultural significance of young adult literature in the world of classical reception These novels all written by women also inflect or interpret the myth in ways influenced by their contemporary contexts specifically the impact of the novels target readership on the aspects of the myth that are either emphasised e.g Persephone's descent into the underworld her existence there and her re ascent or de emphasised e.g the mourning and wanderings of Demeter This book makes original methodological contributions through its innovative dual perspective of myth criticism and classical reception to our understanding of the academically neglected genre of young adult literature and the reception of the myth of Persephone As a result Salcedo González significantly contributes to establishing the cultural significance of young adult literature within the realm of classical reception

The Digital Future of English Simone Murray, 2025-07-18 More than any other academic discipline literary studies is the creation of print culture How then can it thrive in the digital era Early 1990s predictions of the book's imminent demise presented a simplistic either or choice between the legacy of moribund print and triumphalist digital technology Yet we have grown to experience the two media as complexly interdependent and even complementary Clearly digital does not kill print But literary studies in the digital era cannot simply resume business as usual It is urgently necessary to reconsider the discipline's founding assumptions in light of digital technology The digital era prompts a rethinking of literary studies object of study as well as its methods theories audiences and pedagogical practices What counts as literature necessarily shifts in an age of proliferating born digital texts and do it yourself DIY online publication Where should literary studies sit institutionally and how might it graft contextually oriented social sciences methods onto its traditionally humanistic mode of textual analysis Why should literary study continue to marginalize emotional responses to texts when online communities bond via readerly affect Who is the audience for literary criticism in an age where expertise is routinely challenged yet communication with global book loving publics has never been technologically easier Finally how

can we utilize digital tools to rejuvenate literary studies pedagogy and help English staff better connect with millennial age students Literary studies has been convulsed for decades by debates over electronic literature and more recently digitally aided distant reading But these discussions still mostly confine themselves to demarcating our proper object of study We need to think more expansively about digital technology s impact on the underpinning tenets of the discipline Literary Media Studies is pitched at fellow literary scholars book historians media theorists cultural sociologists digital humanists and those working at the interface of these converging disciplines It models constructive engagement with contemporary digital culture Most importantly it brings a burst of sorely needed optimism to the question of literary studies digital future
