**Author:** Ricardo Paulo Javier Arieu

### **Introduction**

Because of the decline in the average western religiosity, modern society is in crisis. Although was God who instituted marriage (Genesis chapter 2:23-35), many young couples know this truth but they are ignoring it. Many obviate marriage, staying single. Others suffer the crisis in marriage and divorce other. So, marriage is in crisis too. But despite this social crisis, the Church continues to advise a couple wishing to organize a family that to be married is the best option to manage a healthy family. Thus the occidental civilization is in crisis and marriage is in crisis too (scandal, divorce, homosexual marriage, death, family violence, etc.).

### **Society in the first church days**

Atkinson, Field, Holmes & O'Donovan mention that in the first church days, marriage was considered of importance to the community, rather as something personal and familiar (2013, p.567). Atkinson et al. say that in marriage "a man and a woman step out of their separateness into community; they turn towards each other" (2013, p.77). In the Spanish Catholic web PrimerosCristianos (2015) said that regarding the marriage rite in the early church, though not originally Jewish, had no Christian originality. The fathers of the Church respected local customs to dictate the marriage rite. In Christian marriage, equality between men and women was social news of the day. In marriage between Christians, the position of women is to partner rights in parity with the other spouse. The Christianity gave the woman a higher consideration compared with the pagan religions of those times. The Letter to Diognetus, a mid-second century brief non

*Marriage After Modernity* Adrian Thatcher,1999-09 For most Christians marriage is considered a sacrament created and uniquely blessed by God Yet the theology of marriage rarely matches the actual experience Marriage is too often a violent loveless institution and it is increasingly delayed avoided or terminated Marriage After Modernity offers new hope for Christian marriage at a time of unprecedented social and theological change It provides an unreserved commendation of Christian marriage reaffirming its status as a sacrament and institution of mutual self giving At the same time it breaks new ground It draws on earlier traditions of betrothal and informal marriage to accept some forms of pre marital cohabitation and provides a new defense of the link between marriage and procreation by sketching a theology of liberation for children Chapters shed new light on divorce and legitimate theological grounds for the parting of the ways contraception and the question of whether marriage is a heterosexual institution Particular attention is paid throughout the book to overcoming the androcentric bias of much Christian thought and the distorting effect it has had on marriage Marriage After Modernity argues for a vision of marriage which does not abandon its history and which draws upon its premodern roots to grapple with our current social cultural and intellectual upheavals      *Law, Religion and Tradition* Jessica Giles,Andrea Pin,Frank S. Ravitch,2018-09-27 This book explores different theories of law religion and tradition from both a secular and a religious perspective It reflects on how tradition and change can affect religious and secular legal reasoning identifying the patterns of legal evolution within religious and secular traditions It is often taken for granted that even in law change corresponds and correlates to progress that things ought to be changed and they will necessarily get better There is no doubt that legal changes over the centuries have made it possible to enhance the protection of individual rights and to somewhat contain the possibility of tyranny and despotism But progress is not everything in law stability and certainty lie at the core of the rule of law Similarly religions and religious laws could not survive without traditions and yet they still evolve and their evolution is often intermingled with secular law The book asks and in some ways answers the questions What is the role of tradition within religions and religious laws What is the impact of religious traditions on secular laws and vice versa How are the elements of tradition to be identified Are they the same within the secular and the religious realm Do secular law and religious law follow comparable patterns of change Do their levels of resilience differ significantly How does the history of religion and law affect changes within religious traditions and legal systems The overall focus of the book addresses the extent to which tradition plays a role in shaping and re shaping secular and religious laws as well as their mutual boundaries
