Examining the social pressure to behave and experience the self in ways that culture prescribes for the bodies we are perceived as having, this book provides an awareness of widely held but distorted assumptions of gender. It also seeks to put men into the position to resist masculine social pressures when conforming to it conflicts with important life goals or values and/or causes harm. Making use of an informal storytelling style provides an accessibility to those interested in breaking down their preconceptions of gender and masculinity as well making links to key theories and concepts. This is a lively and engaging book for undergraduates studying introduction to Gender, Sexuality and Masculinity courses.
