Marshal Schomberg 1615 1690 The Ablest S:

Marshal Schomberg (1615-1690), 'The Ablest Soldier of His Age' Matthew Glozier, 2005-03-01 Frederick Herman von Schomberg was born into a prominent noble family in the Palatinate in 1615. He was a truly international figure: his father negotiated the marriage of Britain's Princess Royal James I's daughter Elizabeth to the Elector Palatine of the Rhine. Having an English mother and a German father, he would go on to marry a French Huguenot lady and fight in the armies of more than six nations. His career spans the mercenary system of the Thirty Years' War 1618-48 through to the formation of Europe's first true standing national armies during William III's wars in the 1690s. He was involved in the international politics and diplomacy of Louis XIV's reign and that king's relations with Britain and the Netherlands in particular. He was also deeply concerned in the plight and exile of the Huguenots in France and their later international presence in the armies of William of Orange. As a committed Protestant he suffered the same prejudices in France as they and his feeling for them is a vital comment on the strength of religious feeling among many high ranking military leaders at the time.

The Seven Years' War, 2012-11-09 In The Seven Years' War Global Views Mark H. Danley, Patrick J. Speelman and sixteen other contributors reach beyond traditional approaches to illuminate the conflict as world war. An introduction addresses the challenges of discretely defining the war. Chapters examine theaters such as the Carnatic, Bengal, the Philippines, Portugal, Senegal and the Caribbean. Other chapters treat understudied topics such as the Anglo-Cherokee campaigns, Sweden's participation, Ottoman neutrality, the Vatican European perceptions of Cossacks and Kalmyks, the Enlightenment and the war, the choosing of sides in Europe and North America, social and political aspects of French and British military life, operational reconnaissance and the war's complex ending in western Germany. A conclusion situates the war as a marker of modernity. Contributors are in order of appearance: Juergen Luh, Armstrong Starkey, Mathew C. Ward, G. J. Bryant, Johannes Burkhardt, Gunnar Aselius, Virginia H. Aksan, Julia Osman, Ewa Anklam, Mrian Fussel, James Searing, Richard Harding, John Oliphant, Mark H. Danley, Patrick J. Speelman, Nicholas Tracy and Matt Schumann.

The Huguenots Rebecca Jane McKee, 2013

The Cambridge History of Ireland: Volume 2, 1550-1730 Jane Ohlmeyer, 2018-03-31 This volume offers fresh perspectives on the political, military, religious, social, cultural, intellectual, economic and environmental history of early modern Ireland and situates these discussions in global and comparative contexts. The opening chapters focus on Politics and Religion and War and offer a chronological narrative informed by the re-interpretation of new archives. The remaining chapters are more thematic, with chapters on Society, Culture and Economy and Environment and often respond to wider methodologies and historiographical debates. Interdisciplinary cross-pollination between, on the one hand, history and, on the other, disciplines like anthropology.

archaeology geography computer science literature and gender and environmental studies informs many of the chapters The volume offers a range of new departures by a generation of scholars who explain in a refreshing and accessible manner how and why people acted as they did in the transformative and tumultuous years between 1550 and 1730 The Orders of Knighthood and the Formation of the British Honours System, 1660-1760 Antti Matikkala, 2008 Sheds considerable new light on the nature development and functions of the orders in a key phase of their history and goes a long way to explaining how such archaic institutions could flourish in a culture that is commonly thought anti traditional and especially hostile to the middle ages Professor JONATHAN BOULTON University of Notre Dame This is the first comprehensive study to set the British orders of knighthood properly into the context of the honours system by analysing their political social and cultural functions from the Restoration of the monarchy to the end of George II s reign It examines the revival of the Order of the Garter and the proposals to establish the Orders of the Royal Oak and the Esquires of the Martyred King at the Restoration the foundation 1687 and the revival 1703 4 of the Order of the Thistle as well as the foundation of the Order of the Bath 1725 It establishes just how central a part the orders played in the British high political life and its comprehensive and multidimensional approach carefully contrasts the idealistic discourse of virtue and honour to the real workings of the honours system it also makes the case for the Chivalric Enlightenment The orders over the water the Garter and the Thistle conferred by the Jacobite claimants are discussed for the first time in the context of the established British honours system Overall the comparison between the socially very restricted British and the increasingly meritocratic Continental orders highlights the isolation of the British honours system from the European tendencies War, Religion and Service Matthew Glozier, David Onnekink, 2017-05-15 During the Glorious Revolution of 1688 Huguenot soldiers were at the forefront of William of Orange s army Their role was an important one and they are with justification best remembered for this act among British historians and the public alike Yet Huguenot soldiering existed long before this event and French Protestants and their descendants featured prominently in European armies long afterwards This volume is the first attempt to bring together in a scholarly study essays treating the Huguenots as soldiers in Europe and globally Their story is often fascinating and sometimes poignant as they aided international Protestantism against Catholic foes across Europe and in the New World while remaining under the cross in their homeland of France The book is divided into three sections the first analysing the period prior to the 1685 Revocation of the Edict of Nantes which sealed their fate in France Their role as mercenaries and freedom fighters receives attention as does the complex political motivation that underscored their involvements abroad in the pre Revocation era Chapters examine the Huguenot rationale for foreign service and the dynamics of the Protestant international of which they were such a prominent part Their role in European armies after that date is covered in the second section of the volume with a number of expert studies of Huguenot refugees in the armies of Britain the Netherlands and Russia A third section treats the Huguenot legacy focusing on the aging generation of refugees and their descendants

contributions to the countries of their adoption This book contains studies of the Huguenots serving in armies in various countries and examines the lives and actions of a number of individual French refugee commanders who led armies consisting of their compatriots By combining biographical studies of eminent figures with broader considerations of group experience the volume presents a wide ranging and thought provoking collection of material making this the first study of its kind to consistently treat the military contribution made by the Huguenots to Europe at the high point of their importance as a historical group
