historian of the black freedom movement reveals how simplistic views of racism and white supremacy fail to address racial inequality and offers a roadmap for a more progressive brighter future Cornel West author of *Race Matters* The fate of poor and working class African Americans who are unquestionably represented among neoliberalism's victims is inextricably linked to that of other poor and working class Americans Here Reed contends that the road to a more just society for African Americans and everyone else is obstructed in part by a discourse that equates entrepreneurialism with freedom and independence This ultimately insists on divorcing race and class In the age of runaway inequality and Black Lives Matter there is an emerging consensus that our society has failed to redress racial disparities The culprit however is not the sway of a metaphysical racism or the modern survival of a primordial tribalism Instead it can be traced to far more comprehensible forces such as the contradictions in access to New Deal era welfare programs the blinders imposed by the Cold War and Ronald Reagan's neoliberal assault on the half century long Keynesian consensus March Toward Freedom James A.
