Jean Numa Ducange argues that it is impossible to study the history of the French socialist movement without a close look at this singular figure and offers a fuller picture of the deep transformations of the Left and Marxism in France from the late 19th century up to the present. This scholarly biography of Jules Guesde seeks to put Guesde's record on a properly historical footing, closely analysing both archival sources and accounts by his contemporaries. Chapter One begins with his early life and the mark left on him by the Paris Commune and exile. Chapter Two emphasises Guesde's importance as leader of a distinct current of French socialism recognised by figures like Karl Marx and Friedrich Engels. Chapter Three sees Guesde become an MP for working class Roubaix, exploring the contradictions between his revolutionary rhetoric and concrete political practice. Chapter Four turns to the years following his electoral defeat in 1898 and his renewed intransigence in the period of the Dreyfus affair and rivalry with Jaurès. Chapter Five explores his key role in the formation of a united Socialist Party. Chapter Six examines the test of World War I and Guesde's anguish at the divisions of French socialism. The book then concludes with an examination of Guesde's contested legacy as both a founding father and figure subject to often pejorative framings.

**The French Left and Indochina, 1945-1954** Edward Francis Rice-Maximin, 1974 French Intellectuals Against the Left Michael Scott Christofferson, 2004 Christofferson argues that French anti-totalitarianism was the culmination of direct democratic critiques of communism, revisions of the revolutionary project after 1956. He offers an alternative interpretation for the denunciation of communism/ Marxism by the French intellectual left in the late 1970s.

Intellectuals and the Left in France Since 1968 Keith A. Reader, 1987-03-02 Lacan, Althusser, Derrida, Foucault: the currency of these names in the world of modern thought is widespread. But all too often in the English-speaking world their work and ideas are considered without reference to the context in which they were produced, and this is the gap that this new study sets out to fill. The major revaluation of what constituted the political set in train by the 1968 events is a key theme here, and the work of the best-known French intellectual figures of the time both illuminates and is illuminated by it. But it is not just a new reading of already familiar figures that the reader will find in this work. Writers little known in the English-speaking world or hitherto not extensively treated in English receive similar contextualising attention so that the recent upsurge in sociology or the impact of a dissident Marxist such as Henri Lefebvre take their place alongside better-known figures in the first book-length English language survey of one of the most exciting and often bewildering periods in European intellectual history.
