Groundwork of Phenomenological Marxism Ian H. Angus, 2021-07-26 In *Groundwork of Phenomenological Marxism* Crisis Body World Ian H Angus investigates the crisis of reason in a contemporary context Beginning with Edmund Husserl's The Crisis of the European Sciences and Transcendental Phenomenology Angus connects the phenomenology of human motility to Marx's ontology of labor in Capital and shows its basis in natural fecundity excess He argues that the formalization of reason creates an inability to foster differentiated community as expected by both Husserl and Marx and that the formalization of human motility by the regime of value reveals the ontological productivity of natural fecundity showing that ecology is the contemporary exemplary science Addressing the crisis requires a philosophy of technology especially digital technology and a dialogue between cultural civilizational lifeworlds which surpasses Husserl's assumption that Europe is the home of reason Angus's overall conception of phenomenology is Socratic in that it is concerned with the presuppositions and applications of knowledge forms in their lifeworld grounding He further shows that the contemporary event is the epochal confrontation between planetary technology and place based Indigeneity This book lays out the fundamental concepts of a systematic phenomenological Marxian philosophy **Class in America** Robert E. Blakeley, 2012-12-06 Contemporary philosophy is by its nature pluralistic to a perhaps greater extent than at any moment of the preceding tradition in that there are multiple forms of thought competing for a position on the center of the philosophic stage The reasons for this conceptual proliferation are numerous But certainly one factor is the increasing development of contemporary means of publication and communication which in turn make possible the rapid dissemination of ideas as well as an informed reaction to them And this in turn has increased the possibility for serious philosophic exchange by enhancing the available opportunities for the interaction of competing forms of thought But although informed philosophic interaction has in principle become increasingly possible in recent years the frequency scope and quality of such discussion has often been less than satisfactory Contemporary philosophic viewpoints tend not to interact in a Hegelian manner as complementary aspects of a totally satisfactory and a perspectival view facets of a singly and all embracing true position Rather contemporary philosophic viewpoints tend to portray themselves as mutually exclusive alternatives only occasionally willing to acknowledge the possible validity or even the intrinsic interest of other perspectives Thus although the multiplication of different forms of philosophy in principle means that there are greater possibilities for meaning full exchange between them in practice the tendency of each of the various philosophic positions to raise claims to philosophic truth from its point of view alone has had the effect of impeding such interaction *Marxism Versus Socialism* Vladimir Gregorievitch Simkhovitch, 1913 Marxism, an American Christian Perspective Arthur F. Examining the social and intellectual collision of the American reform tradition with immigrant Marxism during the Reconstruction era Timothy Messer Kruse charts the rise and fall of the International Workingman's Association IWA the first international socialist organization He analyzes what attracted American reformers many of them veterans of antebellum crusades for abolition women's rights and other radical causes to the IWA how their presence affected the course of the American Left and why they were ultimately purged from the IWA by their orthodox Marxist comrades Messer Kruse explores the ideology and activities of the Yankee Internationalists tracing the evolution of antebellum American reformers thinking on the question of wage labor and illuminating the beginnings of a broad labor reform coalition in the early years of Reconstruction He shows how American reformers priority of racial and sexual equality clashed with their Marxist partners strategy of infiltrating trade unions Ultimately he argues Marxist demands for party discipline and ideological unity proved incompatible with the Yankees native republicanism With the expulsion of Yankee reformers from the IWA in 1871 American Marxism was divorced from the American reform tradition Mariátegui and Latin American Marxist Theory Marc Becker, 1993 Jos Carlos Mari tegui the Peruvian political theorist of the 1920s was instrumental in developing an indigenous Latin American revolutionary Marxist theory He rejected a rigid orthodox interpretation of Marxism and applied his own creative elements which he believed could move a society to revolutionary action without the society having to depend upon more traditional economic factors His interpretation of Peruvian history had a profound effect upon subsequent social movements throughout Latin America This volume reviews the essential elements of Mari tegui's thought and important influences on his intellectual development It demonstrates the role he played in defining a Latin American identity the nature of his intellectual contribution to the development of indigenous revolutionary movements in Latin America and the influence he had on successful revolutionary movements in Cuba and Nicaragua An understanding of Mari tegui's thought is fundamental to understanding the nature of revolutionary changes in Latin America The Journal of Philosophy ,1926
