## Marxs Method In Capital A Reexamination:

**Marx's Method in Capital** Fred Moseley,1993 *Marx's Method in Capital* Fred Moseley,1993-06 This volume explores the largely unexamined question of the logical method employed by Marx in the construction of his economic theory in Capital The most important methodological issues discussed include the nature and significance of dialectical logic the relation between essence and appearance the order of determination between aggregate economic magnitudes and individual magnitudes and the similarities between Marx s logical method and the method of Hegel

**The Mismeasure of Wealth** Patrick Murray,2016-09-07 The Mismeasure of Wealth Essays on Marx and Social Form gathers Patrick Murray s essays reinterpreting Marx and Marxian theory published since his Marx s Theory of Scientific Knowledge 1988 along with a previously unpublished essay and an introduction Murray s essays concentrate on Marx the historical materialist the investigator of historically specific social forms of wealth and labour There is no production in general the production of wealth always involves specific social forms and purposes that matter in many ways Marx s attention to the dynamics and far reaching consequences of historically specific social forms in particular those that are constitutive of the capitalist mode of production sets him off from classical political economy and traditional Marxism In probing Marx s dialectical accounts of the commodity value money surplus value wage labour and capital The Mismeasure of Wealth establishes Marx s singular relevance for critical social theory today

**The Value of Marx** Alfredo Saad Filho,2001-11-29 This book constitutes an overview of recent developments in political economy in general and Marxist value theory in particular The implications of value theory for bank credit inflation and deflation are fully explored

**Marxian Totality** Kaveh Boveiri,2024-08-19 The present volume represents the first book length monograph on the Marxian concept of totality as seen from a philosophical and sociopolitical perspective Drawing on a large number of classical and contemporary works Boveiri elucidates the distinctive features of Marxian totality with a particular focus on its methodology The work has four fundamental elements or moments First it develops arguments against undialectical conceptions of totality Then it presents a critical reading of Hegelian totality focused on The Science of Logic Its penultimate section examines the shortcomings of two well known conceptions of totality one by Georg Lukcs another by Karel Kosk before a final section examines in detail the developmental characteristics of Marxian totality The volume concludes with a chapter dealing with methodological implications

**History and Utopian Disillusion** Jun Young Lee,2008 The series is designed to advance the publication of research pertaining to themes and motifs in literature The studies cover cross cultural patterns as well as the entire range of national literatures They trace the development and use of themes and motifs over extended periods elucidate the significance of specific themes or motifs for the formation of period styles and analyze the unique structural function of themes and motifs

**New Investigations of Marx's Method** Fred Moseley,Martha Campbell,1997 New Investigations of Marx s Method is concerned with the philosophical principles that underlie Marx s economic theory in Capital a subject

which is essential to an understanding of Capital but which has received very little attention The authors of these papers insist that a proper evaluation of Marx's theory and especially its logical coherence requires a clear and thorough understanding of his theory in terms of its own logical structure [Marx's Capital and Hegel's Logic](#) ,2014-04-17 This book provides a wide ranging and in depth reappraisal of the relation between Marx's economic theory in Capital and Hegel's Logic by leading Marxian economists and philosophers from around the world The subjects dealt with include systematic dialectics the New Dialectics materialism vs idealism Marx's inversion of Hegel Hegel's Concept logic universality particularity singularity Hegel's Essence logic essence appearance Marx's levels of abstraction of capital in general and competition and capital as Hegelian Subject The papers in this volume were originally presented at the 22nd annual meeting of the International Symposium on Marxian Theory at Mount Holyoke College in August 2011 The twelve authors are divided between seven economists and five philosophers as is fitting for the interdisciplinary subject of the relation between Marx's economic theory and Hegel's logic Contributors are Chris Arthur Riccardo Bellofiore Roberto Fineschi Gastón Caligaris Igor Hanzel Juan Igo Carrera Mark Meaney Fred Moseley Patrick Murray Geert Reuten Mario Robles Tony Smith and Guido Starosta [How Language Informs Mathematics](#) Dirk Damsma,2019-11-11 In [How Language Informs Mathematics](#) Dirk Damsma shows how Hegel's and Marx's systematic dialectical analysis of mathematical and economic language helps us understand the structure and nature of mathematical and capitalist systems More importantly Damsma shows how knowledge of the latter can inform model assumptions and help improve models His book provides a blueprint for an approach to economic model building that does away with arbitrarily chosen assumptions and is sensitive to the institutional structures of capitalism In light of the failure of mainstream economics to understand systemic failures like the financial crisis and given the arbitrary character of most assumptions in mainstream models such an approach is desperately needed

[Dialectics as Mode of Thought and Method in History](#) Manolis Dafermos,2025-11-24 This book provides a thorough and panoramic exploration of dialectics presenting it as both a mode of thought and a method of inquiry deeply embedded in the history of human thought Rather than treating dialectics as a fixed system of abstract principles the book underscores both its dynamic character and its historical development Through careful examination of pivotal moments in dialectics across diverse historical periods and intellectual traditions the book illuminates how dialectics has continually evolved to address the pressing intellectual and social challenges of each era By tracing the historical trajectory of dialectics from its ancient spontaneous forms to its modern expressions the book highlights the significant transformations it has undergone over time The book also addresses the growing crisis in many fields dominated by reductionist and narrowly empirical approaches which have proved inadequate for capturing the complexity and dynamism of developmental processes In response it points to a resurgence of interest in dialectics as a powerful methodological alternative A central claim of the book is that the full potential of dialectics remains largely unrealised Far from being an obsolete relic of the past dialectics emerges as an

essential method particularly for the study of complex dynamic systems Ultimately the book reconstructs the historical trajectory of dialectics and advocates its vital role in confronting the epistemological and methodological challenges of contemporary inquiry in an ever changing world **The New Dialectic and Marx's Capital** Christopher John Arthur,2004 This book argues that the dialectic of Marx's Capital has a systematic rather than historical character It sheds new light on Marx's great work while going beyond it in many respects **The Handbook of Economic Methodology** John Bryan Davis,D. Wade Hands,Uskali Mäki,1998 The Handbook of Economic Methodology is a major multidisciplinary reference work on the developing field of economic methodology **Marx and Non-equilibrium Economics** Alan Freeman,Guglielmo Carchedi,1996 This major book reconstructs classical Marxist explanations for many of the most important phenomena of the day including mass poverty unequal development and endemic economic crisis The authors vindicate Marx's most contentious propositions showing how the profit rate falls despite continuous technical innovation and how values are transformed into prices preserving his famous two equalities *The Bulletin of the Hegel Society of Great Britain* ,1998

**Hegel and Marx** Ian Fraser,1998 This text introduces the concept of need as viewed by Hegel and Marx and places it within the context of modern need theories and theorists The book works through key texts including Hegel's Philosophy of Right and Marx's Capital and discusses the theory in relation to Soviet Communism and social democracy Covers key texts by Hegel and Marx studied by undergraduates on political theory courses Looks at political implications for modern need theory Accessible author makes good use of textual evidence Need theory is a major element of modern social theory **Recent Developments in Economic Methodology** John Bryan Davis,2006 *Marx, Critical Theory, and Religion* Warren Goldstein,Warren S. Goldstein,2006 This collection of essays brings together scholars who use frameworks provided by Marx and Critical Theory in analyzing religion It's goal is to establish a critical theory of religion within sociology of religion as an alternative to rational choice **Re-reading Marx** Riccardo Bellofiore,Roberto Fineschi,2009-01-05 This collection assesses the relevance of the historical and critical edition and includes analysis by leading scholars of specific themes in the Marxian critique of political economy using the new material available This detailed and fascinating book is essential reading for all seeking the best in contemporary Marxian analysis and theory *Money, Credit, and the Role of the State* Augusto Graziani,2004 This book characterizes develops and evaluates the power of Keynesian analysis as it is defined and utilized by Augusto Graziani to explain the major economic mechanisms which affect the working of our modern monetary production economies It offers a number of original and fresh insights into Keynesian economics **Osaka City University Economic Review** ,1999
