Marshaling Social Support Formats Processes And Effects:

    Marshaling Social Support Benjamin H. Gottlieb,1988 The challenge of creating conditions conducive to the expression of solidarity support and personal change are specifically considered in this volume which illuminates critical issues in the mobilization of social support and the planning of interventions The contributors address many of the issues raised by existing guidelines for designing interventions the emphasis is on empirical work and the volume will be of interest to both practitioners and academics in a variety of social service fields   **Sourcebook of Social Support and Personality** Gregory R. Pierce,Brian Lakey,I.G. Sarason,2013-11-11 The work of 47 contributors from the U S Canada and Israel the Sourcebook gives special attention to the complexity of the social support construct expanding the field s theoretical base by seriously reappraising social support research in the context of findings from other fields of psychology and related disciplines Personality processes are specified to account for observed associations between social support and physical well being Several new studies are included which illustrate empirical approaches to exploring these processes And key contributions highlight the great strides made in understanding the links among personal dispositions situational contexts and potentially supportive transactions   The Meaning And Measurement Of Support Hans O. Veiel,Urs Baumann,2014-01-09 Contains papers from an international symposium held at the Werner Reimers Foundation in Bad Homburg Germany in May 1990 They address the concern that social support research has fragmented into separate areas and that there is a lack of definition concerning social support   *Handbook of Community Psychology* Julian Rappaport,Edward Seidman,2000-05-31 This comprehensive handbook the first in its field brings together 106 different contributors The 38 interrelated but at the same time independent chapters discuss key areas including conceptual frameworks empirically grounded constructs intervention strategies and tactics social systems designs assessment and analysis cross cutting professional issues and contemporary intersections with related fields such as violence prevention and HIV AIDS   **Becoming A Family** Rena D. Harold,Patricia Stow Bolea,Lisa G. Colarossi,Lucy R. Mercier,Carol R. Freedman-Doan,2014-04-08 The movement from young adulthood through coupling and the transition to parenthood may be among the most universal adult developmental transitions These passages hold interest for all of us but especially for those who study the psychological familial and sociocultural components of development all of which interact and influence each other This book enhances understanding of family life development by shedding light on the meanings that family members ascribe to the developmental process of becoming a family This is achieved through qualitative analysis of narratives through which individuals and families explain themselves their thinking and their behavior These family narratives are windows into individual and family identity as well as descriptions of connections to others The book addresses issues including identity child characteristics social support and work Each chapter includes a review of seminal literature parents comments and ideas about the topic and a discussion of practice policy and research implications   **Altruism, Narcissism, Comity**

Nathaniel J. Pallone, How does the sense of basic fairness or selflessness versus selfishness arise How is it exhibited behaviorally How is it maintained Few topics hold more contemporary significance or have proved more elusive to specification in precise scientific terms Current research perspectives on altruism narcissism and comity by distinguished behavioral scientists from around the world were brought together in a special issue of Current Psychology Summer 1998 and are offered here in a useful compendium Chapters and contributors include Equity Justice and Altruism by Graham F Wagstaff Reactions to the Fate of One s Brainchild After Its Disclosure by Sidney Rosen and Shannon Wheatman Need Norm Demographic Influence Social Role and Justice Judgment by Helen E Linkey and Sheldon Alexander Adaptive and Maladaptive Narcissism by Robert W Hill and Greg Yousey Perceptions of Self Oriented and Other Oriented Help Providers by Mark A Barnett Guy D Vitaglione Jeffrey S Bartel Birgit S Valdez Lee Ann Steadman and Kimberly K G Harper and Pathological Narcissism and Serial Homicide by Louis B Schlesinger Altruism Narcissism Comity will benefit students researchers and practitioners in the psychological sciences sociology political science philosophy law and other disciplines concerned with the nature of selflessness heroism justice and their variants Nathaniel Pallone is University Distinguished Professor psychology and criminal justice at Rutgers University and executive editor of Current Psychology He is the author of Mental Disorder Among Prisoners Rehabilitating Criminal Sexual Psychopaths and On the Social Utility of Psychopathology all available from Transaction   **Health Psychology** Gillian N. Penny,Paul Bennett,Mike Herbert,1994 The psychology of health is a rapidly expanding field within psychology It draws upon a number of areas of psychology for its theoretical base but whilst the contribution of social and cognitive psychology is widely acknowledged that of lifespan psychology is perhaps less well recognised However a lifespan perspective has much to offer the health psychologist in the search for a more comprehensive understanding of health and illness This book brings together European American and Australian researchers whose interests in health psychology can be located within a lifespan context The book explores the relevance of developmental and ageing processes to such issues as health and illness perception illness prevention and health promotion the experience of chronic illness health and illness behaviour and the costs and consequences of illness It does so by addressing specific health concerns within each of five stages in the life cycle childhood adolescence early adulthood middle adulthood and old age Thus for example the implications of emergent sexuality for health are addressed within the section on adolescence psychological aspects of reproductive failure and the new technologies are considered within the section on early adulthood whilst issues of social support social control and health are explored in the section on old age Taken as a whole the book offers the reader an interesting and informative illustration of the ways in which a lifespan perspective can enhance our understanding of health and illness   **The Handbook of Stress Science** Richard Contrada,Andrew Baum,2010-09-29 F or those who are entering the field or who want to broaden their perspective Ibelieve that this Handbook is indispensible More than just a contribution to the field theHandbook may well become a classic
