demonstrate the continuing need to theorize the volatile nature of Latin American social reality **Contemporary Latin American Revolutions** Marc Becker, 2022-01-11 Revolutions are a commonly studied but only vaguely understood historical phenomenon. Now updated to include the perspectives of grassroots revolutionary movements and biographies of often marginalized voices this clear and concise text extends our understanding with a critical narrative analysis of key case studies: the 1910-1920 Mexican Revolution, the 1944-1954 Guatemalan Spring, the 1952-1964 MNR-led revolution in Bolivia, the Cuban Revolution that triumphed in 1959, the 1970-1973 Chilean path to socialism, the leftist Sandinistas in Nicaragua in power from 1979-1990, failed guerrilla movements in Colombia, El Salvador, and Peru, and the Bolivarian Revolution in Venezuela after Hugo Chávez's election in 1998. Historian Marc Becker opens with a theoretical introduction to revolutionary movements including a definition of what revolution means and an examination of factors necessary for a revolution to succeed. He analyzes revolutions through the lens of those who participated and explores the sociopolitical conditions that led to a revolutionary situation, the differing responses to those conditions, and the outcomes of those political changes. Each case study provides an interpretive explanation of the historical context in which each movement emerged, its main goals and achievements, its shortcomings, its outcome, and its legacy. The book concludes with an analysis of how elected leftist governments in the twenty-first century continue to struggle with issues that revolutionaries confronted throughout the twentieth century.

Rethinking Community from Peru Irina Alexandra Feldman, 2014-09-20 Peruvian novelist, poet, and anthropologist José María Arguedas (1911-1969) was a highly conflicted figure. As a mestizo, both European and Quechua blood ran through his veins and into his cosmology and writing. Arguedas's Marxist influences and ethnographic work placed him in direct contact with the subalterns he would champion in his stories. His exposes of the conflicts between Indians and creoles and workers and elites were severely criticized by his contemporaries who sought homogeneity in the nation building project of Peru. In *Rethinking Community from Peru* Irina Alexandra Feldman examines the deep political connotations and current relevance of Arguedas's fiction to the Andean region. Looking principally to his most ambitious and controversial work, *All the Bloods*, Feldman analyzes Arguedas's conceptions of community, political subjectivity, sovereignty, juridical norm, popular actions, and revolutionary change. She deconstructs his particular use of language, a mix of Quechua and Spanish, as a vehicle to express the political dualities in the Andes. As Feldman shows, Arguedas's characters become ideological speakers and the narrator's voice is often absent, allowing for multiple viewpoints and a powerful realism. Feldman examines Arguedas's other novels to augment her theorizations and grounds her analysis in a dialogue with political philosophers Walter Benjamin, Jean Luc Nancy, Carl Schmitt, Jacques Derrida, Ernesto Laclau, and Iván García Linera, among others. In the current political climate, Feldman views the promise of Arguedas's vision in light of Evo Morales's election and the Bolivian plurality project, recognizing indigenous autonomy. She juxtaposes the Bolivian situation with that of Peru, where comparatively limited progress has been made towards constitutional recognition of the indigenous groups. As Feldman demonstrates, the prophetic

relevance of Arguedas's constructs lie in their recognition of the sovereignty of all ethnic groups and their coexistence in the modern democratic nation state in a system of heterogeneity through autonomy not homogeneity through suppression. Tragically for Arguedas it was a philosophy he could not reconcile with the politics of his day or from his position within Peruvian society.

Lost for Words? Goetz Frank Ottmann, 2010-10-06 *Lost for Words* explores the rise and decline of progressive Catholic grassroots activism and its drive for social justice and democratic change in four low income neighborhoods in São Paulo Brazil. Ottmann focuses on the obstacles faced by the poor who took seriously the claim that the people were to transform Brazilian society from the bottom up. He follows their travails through periods of democratization, mass unemployment and conservative backlash within the Church. Goetz Frank Ottmann moves beyond purely political analysis to record how residents and progressive Catholic activists were drawn into a struggle for a juster society and how this movement began to unravel even before it reached its peak in the early 1980s. Based on in depth interviews and participant observation and drawing on theoretical insights from recent debates on social movements and the sociology of religion he examines how by the early 1990s the liberationist movement had lost its following, lost its allies, failed to achieve its core goals and seemed to die. Ottmann then shows how in recent years activists have worked to create a new and pragmatic form of religious activism one that draws on a range of agendas including Catholic feminism.

Historical Dictionary of Marxism David Walker, Daniel Gray, 2007 Marxism one of the few philosophies that turned into an effective movement not so long ago was the official ideology in one form or another of much of humanity.
