Marxism and Resistance in Burma, 1942-1945 Robert H. Taylor,1984 **Marxism and Resistance in Burma, 1942-1945** Robert H. Taylor,1984 **Southeast Asia's Cold War** Ang Cheng Guan,2018-02-28 The historiography of the Cold War has long been dominated by American motivations and concerns with Southeast Asian perspectives largely confined to the Indochina wars and Indonesia under Sukarno Southeast Asia's Cold War corrects this situation by examining the international politics of the region from within rather than without It provides an up to date coherent narrative of the Cold War as it played out in Southeast Asia against a backdrop of superpower rivalry When viewed through a Southeast Asian lens the Cold War can be traced back to the interwar years and antagonisms between indigenous communists and their opponents the colonial governments and their later successors Burma Malaysia Singapore Brunei and the Philippines join Vietnam and Indonesia as key regional players with their own agendas as evidenced by the formation of SEATO and the Bandung conference The threat of global Communism orchestrated from Moscow which had such a powerful hold in the West passed largely unnoticed in Southeast Asia where ideology took a back seat to regime preservation China and its evolving attitude toward the region proved far more compelling the emergence of the communist government there in 1949 helped further the development of communist networks in the Southeast Asian region Except in Vietnam the Soviet Union's role was peripheral managing relationships with the United States and China was what preoccupied Southeast Asia's leaders The impact of the Sino Soviet split is visible in the decade long Cambodian conflict and the Sino Vietnamese War of 1979 This succinct volume not only demonstrates the complexity of the region but for the first time provides a narrative that places decolonization and nation building alongside the usual geopolitical conflicts It focuses on local actors and marshals a wide range of literature in support of its argument Most importantly it tells us how and why the Cold War in Southeast Asia evolved the way it did and offers a deeper understanding of the Southeast Asia we know today **Dadland** Keggie Carew,2017-03-07 As her father's memory fails a daughter explores his military past Part family memoir part history book Compelling and moving from start to finish Financial Times One of the San Francisco Chronicle's Ten Best Books of the Year For most of Keggie Carew's life she was kept at arm's length from her father's personal history But when she is invited to join him for the sixtieth anniversary of the Jedburghs an elite special operations unit that was the first collaboration between the American and British Secret Services during World War II a new door opens in their relationship As dementia begins to stake a claim over Tom Carew's memory Keggie embarks on a quest to unravel his story and soon finds herself in a far more consuming place than she bargained for Tom Carew was a maverick a left handed stutterer a law unto himself As a Jedburgh he parachuted behind enemy lines to raise guerrilla resistance first against the Germans in France then against the Japanese in Southeast Asia where he won the nickname Lawrence of Burma But his wartime exploits were only the beginning A winner of the Costa Book Award Dadland takes us on a journey through peace and war and shady corners of twentieth century

politics through the author's English childhood and the breakdown of her family and into the mysterious realm of memory. Brings to mind Helen MacDonald's *H is for Hawk* in the way it soars off in surprising directions, teaches you things you didn't know and ambushes your emotions. NPR's *Astonishing Mixes* intimate memoir biography history and detective story, this is a shape-shifting hybrid that meditates on the nature of time and identity. Tom Carew was a razzle-dazzle character larger than life and anarchically self-invented. For all its vigor and comic zest, *Dadland* is a careful and tender discovery that patiently circles around a man who spent his life mythologizing and running away from himself. *The Observer*

General Ne Win

Robert Taylor, 2015-05-25 Robert Taylor, one of the most prominent scholars in Myanmar studies, has written an illuminating study of Ne Win, the most enigmatic and controversial of the first generation of post-independence Southeast Asian leaders, and how he steered a then largely unknown country, Burma, now Myanmar, through the Cold War years. This book, by perhaps the only foreign political analyst to live in Burma under Ne Win, is a significant contribution to the historiography of Myanmar and its unnoticed role in the Cold War in Asia. Associate Professor Ang Cheng Guan, Head of Graduate Studies, S. Rajaratnam School of International Studies, Nanyang Technological University, Singapore. This book fills a major gap in the literature on Myanmar by providing the first scholarly account of the life of General Ne Win, its enigmatic ruler for over 25 years. It will be of interest not only to professional Myanmar watchers who have long awaited a detailed and comprehensive study of this important historical figure, but to anyone who wants to learn more about this troubled Southeast Asian country where Ne Win's legacy is still being felt today. Andrew Selth, Adjunct Associate Professor, Griffith Asia Institute. The Colonel Ne Win of World War II and General Ne Win of post-independent Myanmar was not the same as Chairman Ne Win of the BSPP. Nor was the context of those days similar to the context by which he is normally judged today. The present work and Taylor's scholarship in general is acutely aware of such anachronistic projections backward made to commensurate with certain desired academic and political consequences. Taylor examines Ne Win's life and career in the context of when it occurred. This book returns Ne Win to the period to which he belonged. Michael Aung Thwin, Professor of South East Asian History, University of Hawaii. It is difficult to imagine that this study of Ne Win, the dominant figure in the politics of Burma through most of the second half of the twentieth century, will ever be surpassed. Immensely detailed, insightful and impressively understanding, this is an outstanding work of scholarship. Ian Brown, Emeritus Professor of the Economic History of South East Asia, School of Oriental and African Studies, London.

The State in Burma

Robert H. Taylor, 2009 *The State in Myanmar* Robert H. Taylor, 1987 *Aung San and the Struggle for Burmese Independence* Angelene Naw, 2001 Recounts the life of Aung San, father of Nobel Prize for Peace winner Aung San Suu Kyi and principal leader in Burma's struggle for independence from Great Britain.

Burma in Revolt Bertil Lintner, 1999 In 1948, Burma was a promising young democracy with a bustling free market economy and a standard of living that surpassed nearly all of its Asian neighbors. Fifty years later, Burma is one of the poorest nations in the world, with a military dictatorship in Rangoon and 50,000 armed rebels from a myriad of ethnic

insurgency groups In this well documented and detailed account journalist Bertil Lintner explains the connection between Burma's booming drug production and its insurgency and counter insurgency providing an answer to the question of why Burma has been unable to shake off 35 years of military rule and build a modern democratic society This revised and updated edition includes a list of a cronyms a chronology of events a who's who of important figures in Burma's insurgency an annotated list of rebel armies and biographical sketches of the Thirty Comrades **Military-civilian Relations in South-East Asia** Zakaria bin Haji Ahmad, Harold A. Crouch, 1985 A collection of essays on the role of the military and military civilian relations in the countries of South East Asia excluding Kampuchea and Brunei **Burma and Japan** Burma Research Group, 1987 *Bulletin of the Burma Studies Group* Burma Studies Group, 1983 **The Fall of Imperial Britain in South-East Asia** Nicholas Tarling, 1993 This book brings two lines of investigation together One investigation is into what might be called the decline and fall of the British empire The book seeks to analyse the nature of Britain's influence in the world at the height of its power in the nineteenth century and the reasons for its decline It is particularly concerned with the attitudes that Britain developed which affected its approach to the interests of other powers and to the emergence of nationalism The other investigation the book undertakes is into the policies the British adopted in South East Asia from the late eighteenth century onwards Most historians of the British empire have concentrated on India Africa or the settler dominions The author aims to bring South East Asia into that discourse and he believes that doing so will also make for a fuller understanding of the emergence of new South East Asian states in the twentieth century The book will be of interest to historians of the British empire and South East Asia More generally it may also interest students of imperialism and world politics **Historical Abstracts** Eric H. Boehm, 1993 **Historical Dictionary of Myanmar** Jan Becka, 1995-02 Historical dictionary of Myanmar also known as Burma **Archiv orientální** Orientální ústav (Akademie věd České republiky), 1987 Included section Book reviews **Books in Series, 1876-1949** R.R.
