While extensive branding literature exists on international brands, there is a scarcity of the same on Indian brands especially the new age ones. India's diverse and evolving market presents unique challenges. What works in developed markets like America may not work in India. Additionally, the obstacles and limitations faced by start ups differ significantly from those encountered by established corporations. Consequently, the literature on established Indian brands may not be highly relevant in the rapidly evolving world of startups. If you want to understand how a start up can transform into an iconic brand in India's diverse, crowded, and ever changing market, this book is a goldmine of strategies and stories you must read.
