Mid-Course Correction Revisited Ray C. Anderson, John A. Lanier, 2019 Revised edition includes new foreword by Paul Hawken and several new chapters by John A. Lanier Midcourse Correction for the College Classroom Carol A. Hurney, Christine M. Rener, Jordan D. Troisi, 2023-07-03 This book is about using the Small Group Instructional Diagnosis SGID method to make improvements to the educational experience midcourse. The idea is to use this structured interview process to involve students in helping faculty improve a course while they are in it potentially making a difference for themselves as well as for future students. Faculty gain the opportunity to work on a course before it ends and can see what changes work without waiting for the next time the course is offered or the end of semester student evaluations. SGID is a consultation method developed to collect midsemester feedback from students using structured small and large group conversations involving four conversations between students and a learned colleague the authors refer to as the SGID consultant and the instructor. First student talk with each other in small groups about the learning happening in a course under the guidance of a consultant. SGID Conversation 1 Student Students. Then the SGID consultant engages the students in a conversation about how the feedback provided impacts the learning in the course. SGID Conversation 2 Students Consultant. Then there is a conversation between the consultant and the instructor where they discuss how the feedback provided by the students can best inform the pedagogical approaches and strategies used by the instructor. SGID Conversation 3 Consultant Instructor. Finally the instructor closes the feedback loop with a conversation with their students about what they learned and how best to move forward. SGID Conversation 4 Instructor Students. These conversations during the middle of the semester change the way students think about the teaching and learning endeavor the way instructors perceive the learning challenges of their courses and the quality of the institutional academic culture. Most importantly the SGID equips the instructor with the knowledge to make midsemester course corrections that can profoundly impact the ways students navigate the course communicate with the instructor and realize the ways effective teaching can enhance learning.
