**Kingship in the Eleventh and Twelfth Centuries** Ronan Mulhaire,2025-05-23 Irish Kingship in the Eleventh and Twelfth Centuries examines the power of medieval Irish kings but treats power as a complex concept worthy of study in its own right It starts from the premise that historians of medieval Ireland have interpreted power in a narrow way This book engages with the rich corpus of literature on power produced by political scientists and sociologists which reveals the sheer complexity and vicissitudes of power as a concept Where there is power there is resistance Hence drawing on evidence from medieval Irish chronicles hagiographies saga literature and advice texts this book explores the largely ignored phenomena of revolt resistance and violence in eleventh and twelfth century Ireland It argues against a panoptic narrative of royal centralisation and suggests that the existence of a multiplicity of kings and non royal lords has proven to be more of a problem for

historians than it was for the Irish kings themselves This book will appeal to scholars and students of medieval Ireland as well as those interested in the history of kingship power and resistance *A Cultural History of the Arabic Language* Sharron Gu,2013-10-11 This history of literary Arabic describes the evolution of Arabic poetry and prose in the context of music ritual performance the arts and architecture The thousands of years old language is perhaps more highly developed and refined than any other on earth This book focuses on what is unique about Arabic compared to other major languages of the world Greek Latin Hebrew English and Spanish and how the distinct characteristics of Arabic took shape at various points in its history The book provides a cultural background for understanding social and political institutions and religious beliefs more influenced by the rhythms and depths of poetic language than other cultures in the Middle East today
