Middleware 2008 Valérie Issarny,Richard E. Schantz,2008-11-23 This volume contains the proceedings of the International Middleware Conference held in Leuven Belgium during December 1-4 2008 This year marked the ninth rendition of this annual conference in its current format initially opted in 1998 aspiring to serve as the premier venue focusing exclusively on important middleware results A lot has happened over the intervening 10 year span Middleware has become pervasive in an increasingly interconnected world with its concepts now securely embedded in the notional architectures driving forward the information age The conference continues to be a focal point for important new initiatives and results for new generations of middleware With each succeeding year it has become an even more competitive publishing venue further extending its selectivity this year as well Of the 117 submissions 21 were able to receive acceptance invitations for an acceptance rate of less than 18% Competitive indeed Additionally these submissions continue to come from all over the globe spanning authors from 23 countries A truly world wide endeavor But other things have also changed as we turn the corner on the first decade of this conference In many ways middleware has achieved significant success where it really counts in terms of technical innovations advanced capabilities successful ideas and enabled systems which permeate society industry government and academia With this success comes maturity

**Middleware 2010** Indranil Gupta,Cecilia Mascolo,2010-11-26 We are pleased to welcome you to the eleventh edition of the Middleware conference The program this year is a sign of the robustness activity and continued growth of the Middleware

community As computing technology around us has evolved rapidly over the past decade our notions of middleware have also adapted so that we stay focused on the most challenging and relevant problems for the present and future As a result this year s program features papers that belong to both tra tional areas as well as new directions Cloud computing social middleware and transactional memory are some of the vanguard areas that you will nd in this year s selection of papers In addition topics that have always been central to the community are also prominent this year including publish subscribe mul cast reliability legacy location awareness trust and security The community s wise evolutionre ects the dynamic role that middleware continues to play in the development of current software systems The program underscores the competitive selection process applied by us and the technical programcommittee out of 116 papers submitted this year we accepted 18 for regular publication In addition Middleware 2010 also includes a new category of Big Ideas Papers which are bold white papers with the potentialtodrivelonger terminnovationinthe eld Weselectedone bigideas paper this year Our industrial track once againbrings forth papers that explore middleware foundations in the context of industrial practice Finally multiple workshops and a doctoral symposium round o Middleware this year making it an attractive conference for students faculty researchers and practitioners
