*MiG-19 Farmer in Action* Hans-Heiri Stapfer, Don Greer, Tom Tullis, 1994-01-01      **Striving for Air Superiority** Craig C. Hannah, 2002 Annotation Tactical bombing Gen Jimmy Doolittle reportedly observed is breaking the milk bottle Strategic bombing is killing the cow Most nations have historically chosen between building tactical and strategic air forces rarely has a state given equal weight to both The advantages of tactical air power are obvious today as small wars and petty tyrants bedevil us but in a Cold War world split between continental superpowers strategic bombing took precedence with calamitous consequences In the 1960s the U S Air Force lacked the equipment and properly trained pilots to assure air superiority because the Tactical Air Command TAC had become little more than a handmaiden to the Strategic Air Command SAC TAC focused primarily on the interdiction of enemy bombers and virtually ignored its other responsibilities Its aircraft were designed to shoot at large lumbering bombers and not to engage in dog fights with highly maneuverable MiGs Hannah shows how a tactical air force that won a victory in World War II deteriorated into a second rate force flying aging aircraft during the early years of the Cold War recovered briefly over Korea then slid into obsolescence during the 1950s His explanation of why America s fighter aircraft did not work in Vietnam is instructive and unsettling Hannah explains how TAC struggled through the war in Vietnam to emerge in the 1970s as the best tactical air force in the world He side steps politics and inter service rivalries to focus on the nuts and bolts of tactical air power The result is a factual informative account of how an air force first loses its way then finds its mission again      **Air Force Magazine** ,2013-07      MiGs Over North Vietnam Roger Boniface, 2008 Discusses the lives of fighter pilots in the Vietnamese Peoples Air Force and their exploits during the Vietnam War      **Soviet Cold War Weaponry: Aircraft, Warships, Missiles and Artillery** Anthony Tucker-Jones, 2015-10-30 An in depth visual guide to the aircraft warships and missiles the Soviet armed forces deployed at the height of the Cold War Throughout the Cold War the United States and the Soviet Union engaged in numerous proxy wars in Africa and the Middle East The Soviet weaponry employed in these conflicts has been captured in a two volume pictorial history by Anthony Tucker Jones This companion to Soviet Cold War Weaponry Tanks and Armoured Vehicles presents detailed photographs of Soviet aircraft warships and missiles in action Between the 1950s and 1980s Soviet and Warsaw Pact countries churned out thousands of weapons ready for the Third World War They also embarked on a technological arms race with NATO in an attempt to counter each new piece of equipment as it appeared The MiG fighters Badger and Backfire bombers and nuclear submarines have achieved almost iconic status but as Anthony Tucker Jones s book shows there was much more to the Soviet armory than these famous weapons Much of it despite its age remains in service with armies guerrilla forces and terrorist organizations around the world today      *Books in Print* ,1991      *The Cumulative Book Index* ,1996 A world list of books in the English language      **Soviet Russia: Strategic Survey** United States.
